The Beatles, Sgt. Pepper, and the Summer of Love Kenneth Womack, Kathryn B. Cox, 2017-07-03 For the Beatles 1967 marks a signal crossroads that would both transform the group's career and place them on a trajectory towards their eventual disbandment. It was a year in which they exploded prevailing rock music demographics through the global onslaught and international success of Sgt Pepper's Lonely Hearts Club Band beginning in June 1967. Yet it was also a period that saw them in a precarious state of flux throughout the summer and fall months as the band attempted to recapture their artistic direction in the wake of Sgt Pepper and the untimely death of manager Brian Epstein. The Beatles Sgt Pepper and the Summer of Love draws readers into that pivotal year in the life of the band. For the Fab Four 1967 would see the band members part ways with psychedelia and the avant garde through the trials and tribulations of the Magical Mystery Tour a project that resulted in a series of classic recordings while at the same time revealing the bandmates aesthetic vulnerabilities and failings as would be filmmakers and auteurs.

Feudal Capitalism and the Innovation Economy Jon-Arild Johannessen, 2023-06-05 In feudal society it was the few at the top who laid the ground for what was produced how it was produced and how it was distributed. Freedom was restricted and people were kept in their place by institutional structures. In capitalism the focus is on free markets free trade and a personal freedom where self interest is assumed to lead to progress for the collective good. In today's world there is a move towards algorithmic capitalism at the micro level platform capitalism at the meso level and feudal capitalism at the macro level. This is the new and innovative concept developed in this book. The author argues that feudal capitalism is distinct but linked to the innovation economy and represents an interconnection between the organization of feudal society and central aspects of capitalism. Additionally he asserts that the balance between feudal capitalism and a reinvented sustainable capitalism based on the innovation economy can help restore the moral compass lost in the evolution of global capitalism. The key argument of the book is that even if we see a development towards feudal

capitalism a more just and moral capitalism can be restored through various social mechanisms such as changes in the institutional framework the development of a balanced form of globalization and re establishing social cohesion and equality of opportunity Further the book offers policy interventions to support this idea The book will find an audience among scholars and researchers of political economy political theory economic history management AI and ethics philosophy and automation inequality and equality of opportunity *Northern Songs: The True Story of the Beatles Song Publishing Empire* Rupert Perry,2009-11-11 The story of how Lennon and McCartney lost the most valuable song publishing catalogue in the world This is a staggering saga of incompetence duplicity and music industry politics **Pop Goes to Court: Rock 'N' Pop's Greatest Court Battles** Brian Southall,2009-11-11 Elvis Ozzy George Michael Metallica George Harrison The Smiths They've all been involved in legal action over the past fifty years or so Pop Goes To Court recalls some of the most entertaining and bizarre court cases ever to take rock n rollers into a courtroom Bono went all litigious over a disappearing hat one Beatle filed suit against the other three and forty years after it was a big hit Procol Harum's A Whiter Shade Of Pale was suddenly the focus of a bitter legal wrangling over who actually wrote it Author Brian Southall digs deep into some of the most memorable music disputes ever to merit the sober deliberations of the law and in doing so reveals much about our changing views on fame and the value of publicity Chokepoint Capitalism Rebecca Giblin,Cory Doctorow,2022-09-27 A call to action for the creative class and labor movement to rally against the power of Big Tech and Big Media Corporate concentration has breached the stratosphere as have corporate profits An ever expanding constellation of industries are now monopolies where sellers have excessive power over buyers or monopsonies where buyers hold the whip hand over sellers or both In Chokepoint Capitalism scholar Rebecca Giblin and writer and activist Cory Doctorow argue we're in a new era of chokepoint capitalism with exploitative businesses creating insurmountable barriers to competition that enable them to capture value that should rightfully go to others All workers are weakened by this but the problem is especially well illustrated by the plight of creative workers From Amazon's use of digital rights management and bundling to radically change the economics of book publishing to Google and Facebook's siphoning away of ad revenues from news media and the Big Three record labels use of inordinately long contracts to up their own margins at the cost of artists chokepoints are everywhere By analyzing book publishing and news live music and music streaming screenwriting radio and more Giblin and Doctorow deftly show how powerful corporations construct anti competitive flywheels designed to lock in users and suppliers make their markets hostile to new entrants and then force workers and suppliers to accept unfairly low prices In the book's second half Giblin and Doctorow then explain how to batter through those chokepoints with tools ranging from transparency rights to collective action and ownership radical interoperability contract terminations job guarantees and minimum wages for creative work Chokepoint Capitalism is a call to workers of all sectors to unite to help smash these chokepoints and take back the power and profit that's being heisted away before it's too late *E-commerce taxation & privacy considerations for*
