*Information Services Today* Sandra Hirsh, 2018-03-02 This second edition of *Information Services Today: An Introduction* demonstrates the ever changing landscape of information services today and the need to re evaluate curriculum competency training and one's personal learning network in order to stay abreast of current trends and issues and more significantly remain competent to address the changing user needs of the information community. Specifically the book provides a thorough introduction history and overall state of the field gives a diverse and global perspective of what it means to be a library and information professional today addresses why information organizations and information and technological literacy are more important today than ever before discusses how technology has influenced the ways that information professionals provide information resources and services in today's digital environment highlights current issues and trends and provides expert insight into emerging challenges innovations and opportunities for the future and identifies career management strategies and leadership opportunities in the information profession. The new edition features chapter updates to address changes in information services introducing new topics such as strategic planning change management design thinking advocacy and data management and analysis and includes new contributing authors. The book begins with an overview of libraries and their transformation as information and technological hubs within their local and digital communities. It covers the various specializations within the field emphasizing the exciting yet complex roles and opportunities for information professionals in a variety of information environments. With that foundation in place it presents the fundamentals of information services delves into management skills needed by information professionals today and explores emerging issues related to the rapid development of new technologies. The book addresses how libraries and information centers serve different kinds of communities highlighting the unique needs of increasingly diverse users and how information organizations and information professional's work to fulfill those needs. This book provokes discussion critical thinking and interaction to facilitate the learning process. The content and supplemental materials discussion questions rich sets of online accessible materials multimedia webcast interviews featuring authors from this book discussing the trends and issues in their respective areas and chapter presentation slides for use by instructors give readers the opportunity to develop a deeper understanding of and engagement with the topics. Additionally this book recognizes the broad range of environments that people with Master of Library and Information Science MLIS degrees work in which include both libraries and other information environments. Thus this book does not only focus on libraries but instead encompasses ALL kinds of information organizations.

**Playful Visions** Meredith A. Bak, 2020-03-17 The kaleidoscope the stereoscope and other nineteenth century optical toys analyzed as new media of their era provoking anxieties similar to our own about children and screens In the nineteenth century the kaleidoscope the thaumatrope the zoetrope the stereoscope and other optical toys were standard accessories of a middle class childhood used both at home and at school In *Playful Visions* Meredith Bak argues that the optical toys of the nineteenth century were the new media of their era teaching children to be discerning consumers of media and also provoking anxieties similar to contemporary worries about children's screen time Bak shows that optical toys which produced visual effects ranging from a moving image to the illusion of depth established and reinforced a new understanding of vision as an interpretive process At the same time the expansion of the middle class as well as education and labor reforms contributed to a new notion of childhood as a time of innocence and play Modern media culture and the emergence of modern Western childhood are thus deeply interconnected Drawing on extensive archival research Bak discusses among other things the circulation of optical toys and the wide visibility gained by their appearance as printed templates and textual descriptions in periodicals expanding conceptions of literacy which came to include visual acuity and how optical play allowed children to exercise a sense of visual mastery She examines optical toys alongside related visual technologies including chromolithography which inspired both chromatic delight and chromophobia Finally considering the contemporary use of optical toys in advertising education and art Bak analyzes the endurance of nineteenth century visual paradigms
