The Legal Framework of Suborbital Flights Irmgard Marboe,Stephan Hobe,2026-02-16 Flights that reach very high altitudes but do not enter Earth orbit are commonly known as suborbital flights It is not clear whether from the legal perspective they are space or aviation activities In practice they include scientific and research missions and more recently also commercial applications such as transportation services and flights with crews and passengers often referred to as space tourism These activities raise numerous legal questions including registration responsibility liability and insurance as well as environmental protection This book contains perspectives on the applicable legal framework from experienced air and space law experts

Flying in the Face of Criminalization Andreas Mateou,Sofia Mateou,2026-03-31 Flying in the

Face of Criminalization examines the critical intersection between aviation safety investigations and criminal proceedings. This comprehensive analysis reveals how the legal system's punitive approach often conflicts with aviation's core objective of learning from mistakes to enhance safety. The new edition significantly expands coverage through 2025, documenting the increase in litigation against aviation professionals and organizations following accidents and serious incidents. It provides crucial insights into recent developments in corporate criminal liability, manslaughter charges, and corporate homicide cases that have transformed accountability standards across the industry. With an unparalleled collection of cases from January 2010 to June 2025, with updates to the Boeing 737 MAX and AF 447 litigation until 30 November 2025, the book explores how varying legal systems worldwide apply liability principles inconsistently and create uncertainty for aviation professionals operating across jurisdictions. A diverse audience will benefit from this book, including legal professionals, aviation consultants, pilots, air traffic controllers, safety officers, airline managers, and accident investigators.
