

5.1 Defence mechanisms

Pathogen	a microorganism that can cause an infectious disease
Immunity	the ability of an organism to resist a particular infection or toxins by antibodies or white blood cells
Infection	process of a pathogen invading and multiplying in the body tissue of the host
Antigen	a foreign protein found on the cell surface membrane which triggers an immune response
Phagocytosis	mechanisms by which cells engulf particles to form a vesicle or a vacuole
Phagocytes	ingest and destroy the pathogen
Lymphocytes	cells involved in immune responses
Antigen-presenting cell	cells that display foreign antigens on the surface
Monoclonal antibody	a collection of identical antibodies cloned from a single antibody
Vaccination	introduction of a vaccine containing appropriate disease antigens injected into the body in order to induce artificial immunity
Antibody	a protein produced by lymphocytes (B cells) in response to the presence of a specific antigen which stimulates an immune response

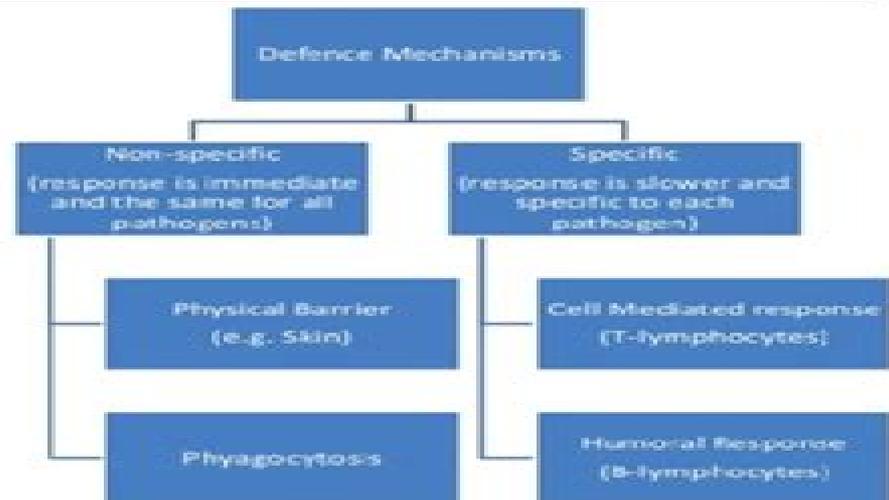

Recognising your own cells

- If the lymphocytes couldn't identify self from non-self-molecules then the lymphocytes would destroy the organism's own tissue.
- Each cell has specific molecules on its surface to identify it, this is why a transport donor has to be genetically similar to the recipient or the organ might be rejected and the person will die

Humoral response secretes antibodies; cell-mediated response secretes cytokines (signals cells about a potential pathogen)

How does the body learn to identify its own molecules?

- In the fetus lymphocytes are always colliding with other cells
- Infections are rare as the fetus is protected by a placenta
- Lymphocytes will collide mostly with own material
- Some lymphocytes will have receptors that fit exactly its own material
- These are there for suppressed or die
- In adults lymphocytes produced in the bone marrow encounter self-antigens at the start
- Any lymphocytes that show an immune response will then undergo programmed cell death (apoptosis) before they mature

5.2 Phagocytosis

The process of phagocytosis

1. Chemical products of pathogen act as attractants causing phagocytes to follow it
2. Phagocytes have several receptors on their cell surface membrane that recognize and attach to chemicals on the surface of the pathogen
3. The phagocyte engulfs the pathogen to form a vesicle (phagosome)
4. Lysosomes move in to fuse with the vesicle
5. Lysozymes destroy ingested bacteria by hydrolyzing the pathogen's cell walls
6. The soluble products from the breakdown of the pathogen are absorbed into the cytoplasm of the phagocyte
7. The antigen is then presented on the cell surface membrane of the phagocyte

2 types of white blood cells:

- Phagocytes (inject destroy)
- Lymphocytes (involved in immune responses)

5.3 T lymphocytes and cell-mediated immunity

Lymphocytes

- produced by stem cells in the bone marrow

The stages of T cells in response to a pathogen:

1. The pathogens invade body cells or are taken in by phagocytosis
2. Phagocyte becomes an antigen presenting cell
3. Receptors on a specific helper T cell fit exactly onto those antigens
4. The attachment activates T cells to divide by mitosis and clone itself
5. The cloned T cells:

A2 Level A Level Biology

Richard Parsons

A2 Level A Level Biology:

A2 Level Biology Phil Bradfield, John H. Dodds, 2002-01 Written to meet the requirements of the new AS A2 Level Biology specifications these highly illustrated texts provide full coverage of the AQA A specification and Edexcel Option C

AS-level Biology Richard Parsons, 2003 Providing almost everything needed for AS level Biology this revision guide is designed to cover the course for all specifications

Longman As Biology Phil Bradfield, 2001 Ensuring smooth progression from GCSE and success in AS and A2 Level Biology Written to meet the requirements of the new AS A2 Level Biology specifications these highly illustrated texts provide full coverage of the AQA A specification and Edexcel Option C The AS text helps students bridge the gap between GCSE and AS Level while the A2 text helps them progress successfully on to the synoptic section of the A2 course Attractive and easy to use clear full colour page design highlighted key points and accessible language help less able students identify main concepts Smooth progression and differentiation each topic gets progressively more difficult and includes self assessment questions with answers to help students monitor their development Synoptic questions are provided at the end of the A2 text to test a variety of topics and draw together AS and A2 Biology Assessment and revision summaries key facts and definitions help students revise while end of chapter questions for all abilities develop exam technique Answers are provided to all the questions in the texts Key skills questions suitable for demonstrating Key Skills are highlighted Contents List AS Level Biology Cells Cell Membranes Biological Molecules Enzymes DNA structure and function Cell Division Reproduction in mammals Reproduction in flowers Gas exchange Heart and blood vessels Blood structure and function Transport in flowering plants Heterotrophic nutrition Ecosystems Effects of humans on ecosystems Gene technology Human health and disease Coverage of the modules is comprehensive and rigorous with a clear emblem used to indicate the match between each chapter or sections within them and the specifications This book is beautifully designed the standard of illustrations is mostly superb lthis is unquestionably an excellent resource See also A2 Level Biology 0582 429455

While this might not be the A2 Level A Level Biology full book , it can give you a taste of the authors writing

style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of A2 Level A Level Biology eBooks, including some popular titles.

FAQs About A2 Level A Level Biology Books

What is a A2 Level A Level Biology PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a A2 Level A Level Biology PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a A2 Level A Level Biology PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a A2 Level A Level Biology PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a A2 Level A Level Biology PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
