Cyberwars in the Middle East Ahmed Al-Rawi,2021-07-16 *Cyberwars in the Middle East* argues that hacking is a form of online political disruption whose influence flows vertically in two directions top bottom or bottom up or horizontally These hacking activities are performed along three political dimensions international regional and local Author Ahmed Al Rawi argues that political hacking is an aggressive and militant form of public communication employed by tech savvy individuals regardless of their affiliations in order to influence politics and policies Kenneth Waltz s structural realism theory is linked to this argument as it provides a relevant framework to explain why nation states employ cyber tools against each other On the one hand nation states as well as their affiliated hacking groups like cyber warriors employ hacking as offensive and defensive tools in connection to the cyber activity or inactivity of other nation states such as the role of Russian Trolls disseminating disinformation on social media during the US 2016 presidential election This is regarded as a horizontal flow of political disruption Sometimes nation states like the UAE Saudi Arabia and Bahrain use hacking and surveillance tactics as a vertical flow top bottom form of online political disruption by targeting their own citizens due to their oppositional or activists political views On the other hand regular hackers who are often politically independent practice a form of bottom top political disruption to address issues related to the internal politics of their respective nation states such as the case of a

number of Iraqi Saudi and Algerian hackers In some cases other hackers target ordinary citizens to express opposition to their political or ideological views which is regarded as a horizontal form of online political disruption This book is the first of its kind to shine a light on many ways that governments and hackers are perpetrating cyber attacks in the Middle East and beyond and to show the ripple effect of these attacks *The Age of Unpeace* Mark Leonard,2021-09-02 A FINANCIAL TIMES ECONOMICS BOOK OF THE YEAR Compulsively readable An essential course in geopolitical self help Adam Tooze Full of fresh and often surprising ideas Niall Ferguson Extraordinary One of those rare books that defines the terms of our conversation about our times Michael Ignatieff We thought connecting the world would bring lasting peace Instead it is driving us apart In the three decades since the end of the Cold War global leaders have been working to create a connected world They ve integrated the world s economy transport and communications breaking down borders in the hope of making war impossible In doing so they unwittingly created a formidable arsenal of weapons for new kinds of warfare Troublingly we are now seeing rising conflict at every level from individuals on social media all the way up to full blown war in eastern Europe The past decade has seen a new antagonism between the US Russia and China an inability to co operate on global issues such as climate change and pandemic response and a breakdown in the distinction between war and peace as the theatre of conflict expands to include sanctions cyberwar and the pressures of large migrant flows A leading authority on international relations Mark Leonard lays out the ways that globalization has broken its fundamental promise to make our world safer and more prosperous and explores how we might wrest a more hopeful future from an age of unpeace *The American Benedictine Review* ,2019 **Platform Revolution** Geoffrey G.
