HOLD Amas Tenumah, 2026-02-14 LET ME TALK TO A HUMAN We've all shouted it Whispered it Thought it while rage pressing zero In HOLD THE SUFFERING ECONOMY OF CUSTOMER SERVICE Amas Tenumah delivers a searing indictment of how modern service was designed not to help you but to wear you down This isn't a how to It's a how dare you Tenumah draws from years inside the belly of the corporate beast where service is measured in KPIs customers are problems to be deflected and automation is the holy grail

so long as it keeps complaints quiet and costs lower He connects the dots between corporate incentives AI illusions and the slow erosion of human connection You ll learn Why wait times are a feature not a flaw How cost cutting masquerades as innovation What companies really mean by world class service And why the future of service depends on a revolt led by us Blending real stories biting wit and an operator s insider knowledge HOLD is a rallying cry for anyone who s tired of being treated like an afterthought and ready to demand something better Modern service is working Just not for you **De Gruyter Handbook of Media Technology and Innovation** Richard A. Gershon,2025-01-27 The De Gruyter Handbook of Media Technology and Innovation brings together scholars from around the world to provide key insights on emerging technology trends and issues related to the fields of media management information technology product design planning and digital lifestyle This handbook is about the power of good ideas It s about those business enterprises government planners educators and entrepreneurs that have harnessed the power of good ideas to become real difference makers in the world we live in Keeping pace with fast paced technology change requires ongoing assessment and reassessment of the media management and technology fields to address important questions and emerging issues A major premise of this book is that given the complex and ever changing state of media technology we have a responsibility and obligation to engage in a broader interdisciplinary dialogue whose purpose is to understand the current and future state of media technology and innovation as well as to appreciate the social impact that such technologies have on business education and the general public Forecasting the future as any weatherperson or stock broker can tell you is a risky business But in this book we use the phrase the creative next step as a way to talk about the future and what we can expect in terms of the opportunities and challenges going forward Strategic Airline Retailing and Solutions Nawal K.
