De Gruyter Handbook of Media Technology and Innovation Richard A. Gershon, 2025-01-27 The De Gruyter Handbook of Media Technology and Innovation brings together scholars from around the world to provide key insights on emerging technology trends and issues related to the fields of media management information technology product design planning and digital lifestyle This handbook is about the power of good ideas It s about those business enterprises government planners educators and entrepreneurs that have harnessed the power of good ideas to become real difference makers in the world we live in Keeping pace with fast paced technology change requires ongoing assessment and reassessment of the media management and technology fields to address important questions and emerging issues A major premise of this book is that given the complex and ever changing state of media technology we have a responsibility and obligation to engage in a broader interdisciplinary dialogue whose purpose is to understand the current and future state of media technology and innovation as well as to appreciate the social impact that such technologies have on business education and the general public Forecasting the future as any weatherperson or stock broker can tell you is a risky business But in this book we use the phrase the creative next step as a way to talk about the future and what we can expect in terms of the opportunities and challenges going forward **Logic of Feeling** Luke Munn, 2020-12-04

From the virulence of fake news to the rise of psychographic profiling emotion has become ascendant The new frontier of capitalization is not outward but inward the inner life of affect and emotion desire and disposition This book lays that new reality out with a series of close case studies A new set of technologies are emerging from facial coding to affective computing that attempt to render the emotional into the machine readable At the same time social media and smart home devices are becoming empathic attempting to draw out our affective participation and elicit our emotional expression In these encounters with the medial and the technical the emotional is remade Combining a close analysis of contemporary technologies such as Affectiva Facebook and Alexa with critical media theory **Logic of Feeling Technology s Quest to Capitalize Emotion** examines how the quest to operationalize this inner life begins to reconfigure feeling itself **Canadian Florist** ,1927 *Electronics Now* ,1998 *Selling* David J.
