JEBPS Vol 6-N1 Journal of Evidence-Based Practices for Schools, 2005-02-15. The Journal of Evidence-Based Practices for Schools is a leader in publishing research to practice articles for educators and school psychologists. The mission of this journal is to positively influence the daily practice of school-based professionals through studies demonstrating successful research-based practices in educational settings. As a result, the editors are committed to publishing articles with an eye toward improving student performance and outcomes by advancing psychological and educational practices in the schools. They seek articles using non-technical language that 1) outline an evidence-based practice, 2) describe the literature supporting the effectiveness and theoretical underpinnings of the practice, 3) describe the findings of a study in which the practice was implemented in an educational setting, and 4) provide readers with information they need to implement the practice in their own schools in a section entitled Implementation Guidelines. The Journal of Evidence-Based Practices for Schools differs from other scholarly journals in that it features articles that demonstrate empirically based procedures for readers to apply the practice in their setting.
