A Gabriel Marcel Reader:

The Participant Perspective Gabriel Marcel, Thomas W. Busch, 1987 *The Participant Perspective* Gabriel Marcel, 1987

A Gabriel Marcel Reader Gabriel Marcel, 2011 French existentialist philosopher Gabriel Marcel 1883 1973 is one of the most influential thinkers of the twentieth century The central themes of his philosophy which are developed with a blend of realism concreteness and common sense continue to be relevant for the plight of humanity in the twentieth first century Marcel s thought emphasizes the attempt to safeguard the dignity and integrity of the human person by emphasizing the inadequacy of the materialistic life and the unavoidable human need for transcendence the inability of philosophy to capture the profundity and depth of key human experiences and so the need to find a deeper kind of reflection the importance of the experience of inter subjectivity which Marcel believes is at the root of human fulfillment and which also finds expression in the transcendent dimension of human experience a dimension that cannot be denied without loss and that often gives meaning to our most profound experiences Marcel is also one of the few contemporary thinkers who manages to do justice to the subjectivity and individuality of the human person while avoiding the relativism and skepticism that has tended to accompany these notions and that has plagued contemporary philosophy after Heidegger He makes an unwavering effort to challenge the moral relativism and spiritual nihilism of his French rival Jean Paul Sartre and of other representative existentialist philosophers All of Marcel s important ideas are introduced here ranging from his unique conception of philosophy to his original approach to epistemology and the nature of knowled to his view on the nature of the human person including the idea of being in a situation and the importance of the context that the subject lives in for the subject s ideas and experiences to his approach to religious themes including the issues of the rationality of religious belief the question of God s existence and our longing for the transcendent and his concrete approaches of fidelity hope love and faith There are also selections in which he discusses some of his misgivings about the direction of contemporary culture especially the effects of technology Book jacket **The Bloomsbury Handbook of Existentialism** Jack Reynolds, Ashley Woodward, Felicity Joseph, 2023-12-28 This fully revised and updated 2nd edition provides a comprehensive reference guide to existentialism featuring key chapters on key existentialist thinkers as well as chapters applying existentialism to subject areas ranging across politics literature feminism religion the emotions cognitive science and poststructuralism Contemporary developments in the field of existentialism that speak to issues of identity and exclusion are explored in 4 new chapters on race gender disability and technology whilst the 5th new chapter new chapter outlines analytic philosophy s complicated relationship to existentialism Presenting the field of existentialism beyond the European tradition this edition also includes a new key thinker chapter on Frantz Fanon alongside Kierkegaard Nietzsche Heidegger Sartre and de Beauvoir as well as new engagement with the work of scholars on race and existentialism including Lewis R Gordon George Yancy and Richard Wright The resources section at the end of the book includes an updated A to Z glossary and timeline of key events texts and

thinkers in existentialism as well as a list of relevant organisations and an annotated guide to further reading making this 2nd edition an invaluable text for scholars and students alike *Gabriel Marcel. (1. Publ.)* Seymour Cain,1963 Myself as Another Fr. John McNerney,2024-03-10 *Myself As Another* uniquely approaches the reality of the human person offering an exploration of the writings of politicians psychiatrists and philosophers on the subject of personal identity and the other McNerney s treatment of these questions is made not on intellectual stilts but rather with a focus on the heart of contemporary human experience in the light of God s self revelation Drawing deeply on the insights of Jewish Protestant and Catholic thinkers McNerney shows how a spirituality of unity can nourish us on a journey to the heart of who we are

Gabriel Marcel, an Introduction Thomas J. M. van Ewijk,1965 The purpose of this introductory work is to acquaint the reader with the French philosopher and dramatist Gabriel Marcel But it is concerned only with Marcel the philosopher Preface page 9 *Critics of Enlightenment Rationalism* Gene Callahan,Kenneth B. McIntyre,2020-05-13 This book provides an overview of some of the most important critics of Enlightenment rationalism The subjects of the volume including among others Burke Kierkegaard Nietzsche T S Eliot Wittgenstein Heidegger C S Lewis Gabriel Marcel Russell Kirk and Jane Jacobs do not share a philosophical tradition as much as a skeptical disposition toward the notion common among modern thinkers that there is only one standard of rationality or reasonableness and that that one standard is or ought to be taken from the presuppositions methods and logic of the natural sciences The essays on each thinker are intended not merely to offer a commentary on that thinker but also to place that thinker in the context of this larger stream of anti rationalist thought Thus while this volume is not a history of anti rationalist thought it may contain the intimations of such a history *The Philosophy of Gabriel Marcel* Kenneth T. Gallagher,2020-05-08 Professor Kenneth Gallagher provides a detailed and clear elucidation of the master of Christian Existentialism Gabriel Marcel THE PRINCIPAL AIM OF A BOOK ON THE PHILOSOPHY OF GABRIEL MARCEL ought to be to send the reader back to the original works in all their non expoundable concreteness Actually in the case of this relentlessly unsystematic thinker even to speak of his philosophy has a hollow ring for it suggests just the kind of carefully constructed edifice of doctrine which Marcel deliberately renounces An attempt to expound such a thought inevitably runs the risk of distorting it And yet the risk seems worth running For Marcel s thought while original and fascinating is so extremely elusive that it is a rare reader for whom it does not seem to cry out for interpretation The paradox is that this elusiveness is an essential constituent of his thought and any exposition which sought to eliminate it would be self defeating In the pages that follow I have sought to find the source of this elusiveness not in order to banish it but rather in order to discover its philosophical significance My hope has been that through a progressive penetration of Marcellian themes the animating principle behind his thought will gradually emerge What follows then is an exposition in the sense that an attempt has been made to bring the contours of Marcel s thought into clear focus but one which preserves the freshness of his approach From the author s introduction Living Existentialism J. C. Berendzen,Gregory Hoskins,2017-03-24

Writing in the late 1990s about the tendency of encyclopedists to designate existentialism a finished project Thomas W Busch cautions that such hasty periodization risks distorting our understanding of the contemporary philosophical scene and of depriving ourselves of vital resources for critiquing contemporary forms of oppression what Gabriel Marcel referred to as processes of dehumanization We should recall that existentialism made possible present forms of Continental philosophy all of which assume the existentialist critique of dualism essentialism and totality in modern philosophy and we should acknowledge that existentialism remains capable of haunting today s scene as an important and relevant critic Offered in honor of Thomas W Busch after his more than fifty years of work in philosophy the essays in this volume attest to existentialism as a living project The essays are written by scholars who championed existentialism in America and by scholars who now seek to extend existentialist insights into new territory including into research in cognitive science The essays range from studies of key figures and texts to explorations of urgent topics such as the nature of freedom and the possibility of what Busch calls incorporation a sense of communicative solidarity that respects difference and disagreement

In Search of the Spiritual Paul Marcus, 2018 Gabriel Marcel 1889 1973 the first French existentialist and phenomenologist was a world class Catholic philosopher an accomplished playwright drama critic and musician He wrote brilliantly about many of the classic existential themes associated with Sartre Heidegger Jaspers and Buber prior to the publication of their main works Marcel regarded himself as a homo viator a spiritual wanderer If man is essentially a voyager it is because he is en route towards an end which one can say at once and contradictorily that he sees and does not see As a self described philosopher of the threshold and an awakener his stated goal was to shed some light on the nature of spiritual reality those moments when one experiences an upsurge of the love of life In this book Paul Marcus joins the best of Marcellian and psychoanalytic insights to help the reader develop an inner sensibility that is more receptive responsive and responsible to the transforming sacred presences that grace everyday life such as are experienced in selfless love hoping beyond hope and maintaining faith in the goodness of the world despite its harsh challenges Whether one is reading *Re finding God during Chemo therapy* *Maintaining Personal Dignity in the Face of the Mass Society* *On Fidelity and Betrayal in Love Relationships* or *The Kiss* Marcus with the help of his two spiritual masters Marcel and Freud points the reader in the direction of a greater everyday sacred attunement to the eternal presences that life mysteriously reveals to those with a discerning eye and an open heart Provided by publisher

Gabriel Marcel's Ethics of Hope Jill Graper Hernandez, 2011-10-13 The idea of hope has received significant attention in the political sphere recently But is hope just wishful thinking or can it be something more than a political catch phrase This book argues that hope can be understood existentially or on the basis of what it means to be human Under this conception of hope given to us by Gabriel Marcel hope is not optimism but the creation of ways for us to flourish War poverty and an absolute reliance on technology are real life evils that can suffocate hope Marcel s thought provides a way to overcome these negative experiences An ethics of hope can function as an alternative to isolation dread and anguish offered by most existentialists This book presents Marcel s existentialism as a convincing relevant moral theory founded on the creation of hope interwoven with the individual s response to the death of God Jill Hernandez argues that today s reader of Marcel can resonate with his belief that the experience of pain can be transcended through a philosophy of hope and an escape from materialism
