

## ***A Guide to the Preparation of Plot Plans & Summary Sheets***

Office of Right of Way, Right of Way Design Section    DATE: 02/15/08

This information is intended as a guide for the construction of plot plans and summary sheets, additional information can be found in the *Office of Right of Way Design Manual*.

The purpose of the plot plan is to help the property owner better understand the impacts of the proposed acquisition as related to the specific property. The plot plan is also a requirement of the appraisal process. Technical information should be obtained from the plan set, survey plat or other supporting documents.

The plot plan shows the area of acquisition in relation to the property as a whole, thus the entire property limits must be indicated. If the ownership limits are too extensive to fit on the plot plan, a small insert (thumbnail sketch) may be necessary (see directions in the *Technical Aid For The Construction of Plot Plans*). This should however be utilized rarely and only as a last resort. Also in some cases it may be necessary to have 2 plot plans (1 of 2 & 2 of 2), again, this should be avoided if possible.

### **SCALES**

All plot plans are to be one of the following sizes unless otherwise approved:

- 1 inch = 800 ft. (full section)
- 1 inch = 400 ft. (1/4 section)
- 1 inch = 200 ft. (1/4, 1/4 section)
- 1 inch = 100 ft. (urban areas)

In the case of a acreage it is recommended that a scale such as 1 inch = 200 ft. be used. This will allow the proposed right of way to be clearly seen. When this is done it will be necessary to label the 1/41/4 section and a corner – preferably a section corner if possible.

### **TEMPORARY EASEMENTS**

All temporary easements must have a note stating their specific purpose. The note should include area of the temporary easement. When temporary easements are used for detours or access ways during construction the acreage will be provided on the summary sheet since the area encompassed will be utilized for an extended period of time.

### **ACCESS POINTS AND ACCESS CONTROL**

Access locations must be indicated by a bold arrow, see example, and a station call is to be provided at each location. This station location is to match the Access Control Letter except at property line locations where the station call may differ slightly and have a plus or minus sign behind it. County road locations will be listed as access locations but are not considered entrances.

When access control has been acquired previously it should be noted as such in the comment section with the relevant book and page number for reference (a copy of the document is to be included in the file). When we are changing a previously reserved
