Global Production Eberhard Abele, Tobias Meyer, Ulrich Näher, Gernot Strube, Richard Sykes, 2008-01-26 Global production and purchasing operations create a platform for entry into new markets. However, it takes considerable effort to plan and implement a sustainable globalization strategy. This book will help in that task. The wealth of experience and analysis featured in this book is the result of an extensive survey among leading manufacturing companies as well as countless discussions with executives who have personally wrestled with the issues of going global. The book treats the whole range of management challenges. In breadth and depth, the insights it offers surpass what a manager or most individual companies could acquire on their own.

Marketing In India, Cases And Readings - S. Neelamegham, 2012 This book provides a comprehensive overview of the current marketing environment in India. It examines the changing dynamics of marketing management against the backdrop of globalization and liberalization, analysing how both marketers and consumers are adapting to radical changes. Insightful perspectives on key issues including market segmentation, brand strategy, product planning, advertising, pricing, and distribution strategies, as well as challenges of rural marketing, are given. This Fourth Edition boasts incisive coverage of all contemporary concepts and formats of marketing, including retailing, Internet marketing, and telemarketing. It is further enriched by varied case studies that are drawn from the Indian experience and will go a long way to inculcate skills of analysis, logical thinking, and decision making in students. THE POWER OF ADVANCED QUESTIONING David Tinney, 2019-11-15 Give yourself real power by improving your skills in asking and answering questions. It really can lead to greater success. We use questioning throughout our lives, and yet few have ever thought about the need and how to improve it. *The Power of Advanced Questioning* is a fascinating guide that introduces some new, unique frameworks, as well as the ins and outs of asking effective questions, set against a backdrop of entertaining anecdotes to get to grips with the points being made. These techniques will propel you to a higher level of capability and the success you deserve. It will also cover a largely forgotten skill: answering questions effectively, which can yield fantastic results more efficiently than most people realise.

Automotive FDI in Emerging Europe A. J. Jacobs, 2017-06-19 This book examines the dramatic increase in automotive assembly plants in the former Socialist Central European (CE) nations of Czechia, East Germany, Hungary, Poland, and Slovakia from 1989 onwards. Enticed by relatively lower wage labour and

significant government incentives the world's largest automakers have launched more than 20 passenger car assembly complexes in CE nations with production accelerating dramatically since 2001. As a result, the annual passenger car production in Western Europe declined by more than 20% between 2001 and 2015, and alternatively in the CEE it increased by nearly 170% during this period. Drawing on case studies of 25 current and former foreign-run assembly plants, the author presents a rare historical account of automotive foreign assembly plants in the CE following this dramatic geographic shift. This book will expand the knowledge of policy makers in Europe in relation to their pursuits of FDI and will be of great interest to scholars and students of business, economic history, political science, and development. *Newsreview*, 1998
