Pure Human Gregg Braden,2025-01-28 In an age where technologies such as AI threaten to supplant human intelligence an award winning scientist offers a radical new view of our innate human technology and what we re truly capable of There are rare moments in time when we make choices that irreversibly change the world and our lives forever Today is one of those moments Scientists engineers and philosophers alike warn us that without a radical shift in our thinking we are on track to be the last generation of pure humans that the world will know Within a single generation we will devolve into a hybrid species of synthetic bodies Artificial Intelligence AI and computer chips that limit our ability to think to love and to adapt to the conditions of the emerging world in a healthy way In doing so we will also lose our capacity for emotion empathy intimacy and forgiveness the very qualities that we value and cherish in our humanness The question that we face is simple Do we love ourselves enough to preserve the gift of our humanness Our answer is based upon the way we ve been taught to think of ourselves This book is a compelling journey of self discovery that will catapult you beyond conventional thinking when it comes to your origins your limits and most importantly the abilities that have been hidden from you for centuries and the extraordinary potential that awaits as you embrace them
