Technology in the Classroom Alaqad, Mohammed H., Al Murshidi, Ghadah, Bougdira, Abdesselam, Almurshidi, Badria, Al Zaabi, Ahmed, 2025-04-09 In recent years the integration of artificial intelligence AI in education has rapidly transformed the traditional classroom opening new possibilities for both teachers and students AI powered tools can enhance the classroom environment by offering personalized adaptive learning experiences tailored to individual student needs From automated grading systems and AI driven tutoring to intelligent content recommendations and predictive analytics AI empowers educators to optimize their teaching strategies and engage students in more meaningful ways However the growing presence of AI in classrooms also raises critical questions about the role of human educators and the ethical implications of machine based learning The future of education lies not in replacing teachers with machines but in creating synergistic environments where technology amplifies human creativity empathy and instructional expertise Blending Human Intelligence With Technology in the Classroom offers a comprehensive exploration of how AI technologies redefine teaching methodologies reshape learning experiences and challenge existing pedagogical models It bridges the gap between human intelligence and machine driven solutions demonstrating how AI powered tools can enhance the classroom environment by offering personalized adaptive learning experiences tailored to individual student needs Covering topics such as critical thinking gamification and human connections this book is an excellent resource for educators administrators computer engineers policymakers researchers academicians and more *Explainable Artificial Intelligence-based Industrial Internet of Things* Surendra Reddy Vinta, Sagar Dhanraj Pande, Aditya Khamparia, 2025-12-31 The text explains how explainable artificial intelligence impacts problem solving and aims to provide practical suggestions across various emerging industries It further discusses important topics such as the strategic utilization of explainable artificial intelligence in supply chain enhancement the integral role of explainable artificial intelligence in smart farming and smart cities with the industrial Internet of Things integration Features Discusses local interpretable model agnostic explanations and Shapley additive explanations for transparent data analysis modeling and prediction Highlights the importance of using artificial intelligence AI in optimizing processes by studying decision making interpretability in supply chain optimization Explains the use of explainable artificial intelligence to optimize supply chains by predicting demand identifying bottlenecks and making informed decisions about inventory management Illustrates the benefit of employing explainable artificial intelligence in optimizing resource utilization improving decision making and creating more efficient and sustainable ecosystems Explores the integration of explainable artificial intelligence into smart appliances to provide insights into their operations and improve user experience It is primarily written for senior undergraduates graduate students and academic researchers in the fields of electrical engineering electrical and communications engineering computer science and engineering and information technology

Design With Ai Without Losing Your Taste Raphael Westwick, 2025-10-17 Artificial intelligence can accelerate your creative process but it shouldn't erase your individuality Design With AI Without Losing Your Taste teaches artists designers

and creative professionals how to harness AI as a collaborator not a replacement This book walks you through the process of using AI tools for brainstorming sketching and refining ideas while maintaining control over aesthetics emotion and intent Learn how to build critique loops that use AI feedback to sharpen not dilute your signature style From crafting effective prompts and curating reference moodboards to analyzing visual output critically you ll discover practical workflows for keeping your creative voice authentic in the age of automation Through real world examples design frameworks and mindset shifts Design With AI Without Losing Your Taste helps you establish an intelligent partnership with your tools one that amplifies intuition rather than imitation Whether you re a hobbyist exploring new creative tools or a professional building client ready concepts this book gives you the language process and confidence to use AI while staying true to your artistic identity

Writing with AI in EFL Classrooms: Students' Perspectives and Pedagogical Implications Melanie Razonable,2026-03-18 Essay from the year 2026 in the subject Didactics for the subject English Miscellaneous grade 11 language English abstract The rapid development of Artificial Intelligence AI has begun to reshape educational practices across disciplines including language learning In English as a Foreign Language EFL contexts AI assisted writing tools are increasingly used to support learners during different stages of the writing process These tools provide functions such as idea generation vocabulary suggestions grammar feedback and text modeling which may help students overcome common difficulties in second language writing This paper explores students perspectives on the use of AI assisted writing tools in EFL classrooms and discusses the pedagogical implications of integrating these technologies into writing instruction Drawing on existing literature and theoretical frameworks such as the Technology Acceptance Model and the Presage Process Product model the discussion examines how students perceive the usefulness and accessibility of AI tools and how these perceptions influence their engagement with writing tasks The analysis suggests that EFL learners generally express positive attitudes toward AI writing tools reporting benefits such as reduced writing anxiety improved idea development and increased exposure to vocabulary and grammatical structures However the paper also highlights potential concerns including overreliance on AI inaccuracies in AI generated language and possible limitations for creativity and critical thinking when AI is used without guidance The paper argues that the effectiveness of AI in writing instruction depends not primarily on the technology itself but on how it is integrated into pedagogical practice Thoughtful instructional design and active teacher guidance are essential to ensure that AI functions as a supportive learning tool rather than a substitute for meaningful language learning The study concludes by emphasizing the importance of responsible and reflective integration of AI technologies to support sustainable development in EFL writing education

Computer-Human Interaction Research and Applications Hugo Plácido da Silva,Pietro Cipresso,2025-03-07 This two volume set CCIS 2370 and CCIS 2371 constitutes the proceedings of the 8th International Conference on Computer Human Interaction Research and Applications CHIRA 2024 held Porto Portugal during November 21 22 2024 The 16 full papers and 45 short papers presented in these
