Business Analysis and Valuation, 2016 The International Brand Valuation Manual Gabriela Salinas, 2011-11-22 The International Brand Valuation Manual is a detailed and extensive review of the main brand valuation models. The book reveals the state of the art in the field of brand valuation and coherently relates major trends in the theory and practice of brand valuation. This one-stop source is for valuation professionals as well as financial and marketing specialists who need to have an understanding of the principal valuation methods. Salinas also analyses the respective efficacy, advantages, disadvantages, and prospects for the future for each method. The book provides a thorough overview of all the tools available for the brand valuation practitioner. Offers an informed view on which methodologies are most suitable for different types of applications and explains why. Acts as an all-in-one source of reference for specialists who advise clients on which methodology to employ or who are considering adopting one themselves. Features case studies and examples from Guinness, PwC, Rolls Royce, Santander, Shell, Telefonica, Unilever, BMW, Hanson Trust, Cadbury, Schweppes, Kellogg, Coca-Cola, Mercedes, Rolex, among others. Gabriella Salinas is the Global Brand Manager at Deloitte Touche Tohmatsu, Madrid, Spain.

Capital Structure and Firm Performance Ewelina Sokołowska, Milad Zargartalebi, 2024-12-11 In the complex world of finance, understanding the relationship between a company's capital structure and its overall performance is crucial. This book offers a comprehensive exploration of the interdependence between capital structure decisions and business performance, with a specific focus on German-listed companies. It provides valuable insights into the intricate dynamics of corporate finance. Through a blend of theoretical frameworks, empirical research, and practical applications, the book presents readers with a thorough understanding of how capital structure decisions impact a company's profitability, risk profile, and long-term sustainability. From traditional theories of capital structure to cutting-edge empirical methodologies, the book outlines the latest developments in the field, offering practical tools and strategies for optimising financial decision-making. Moreover, the book explores how different regions and global trends influence capital structure decisions, providing a comprehensive examination of varying practices and the factors that shape them. It delves into specific aspects influencing global capital structures, including an analytical comparison of capital structures across key global markets such as the United States, the European Union, and China. This comparison highlights how economic, cultural, and market dynamics influence corporate leverage decisions. The impact of technological innovations and their role in reshaping financial strategies are also discussed. Designed for scholars, researchers, and advanced students in finance and economics, this book serves as a definitive reference for understanding the complex dynamics of corporate finance. With its rigorous analysis and practical insights, it equips readers with the knowledge and analytical tools needed to navigate the challenges of capital structure decision-making in today's dynamic business environment.
