Business Objects Xir3 Designer Guide

David Jackson

Business Objects Xir3 Designer Guide:

Building Business Objects Peter Eeles, Oliver Sims, 1998-04-13 A complete guide to the analysis design construction deployment and reuse of business objects for your organization Business objects are fully interoperable plug and play distributed components that provide a natural way to depict the things you use in your everyday business processes With them you can evolve business applications incrementally to fit changing organizational needs rapidly build new applications entirely from reusable components and dramatically reduce your development and maintenance costs Now find out how to put business objects to work for your organization in Building Business Objects Written by participating members of the OMG s Business Object Domain Task Force Building Business Objects reviews the theory behind business objects and business components and explains how a Business Object Facility BOF can augment ORBs such as CORBA and DCOM The authors then discuss future directions for business object technology including standards and integration with Java and other Web technologies Finally they provide proven techniques for each stage of the business object development process with numerous real world examples Using UML 1.1 throughout you learn how to Analyze the business domain Apply proven design patterns Build and utilize your own business objects The CD ROM supplies you with The BOF Lite Business Object Facility software A library of sample business objects The tools to build and use your own simple business objects A tutorial in which you construct real business applications

Business Objects Designer XI V3 Robert D. Schmidt, 2009 Creating Universes with Business Objects Designer XI V3 is a complete learning system consisting of a thorough book and a professionally designed computer based training application The system is completely dedicated to teaching you how to become a competent Universe Designer Readers learn how to create a basic universe and how to tackle many of the complications that may arise when designing universes These topics include chasm traps fan traps multi keyed property tables double counting measures multiple fact tables aggregated fact tables and more

[Creating Universes with Designer XI](#) Robert D. Schmidt, 2006 After creating over a half dozen successful training manuals on Business Objects document creation Robert Schmidt has applied his technical and teaching skills to develop Creating Universes with Designer XI This book is a very well thought out reference book and training manual The information is presented in a new format that allows for graphics to be presented on a separate page from the text Each graphics page has a facing text page that supports the graphic This separation of graphics and text allows for larger and clearer graphics The new format also allows for thorough explanations and robust examples In addition to the new format the book also includes a CD that contains videos of the example in the book The videos are accessible through a PDF presentation file that can be used to train others or be used as an electronic reference as you work through the examples
