Handbook of Research on Transforming Teachers' Online Pedagogical Reasoning for Engaging K-12 Students in Virtual Learning Niess, Margaret L.,Gillow-Wiles, Henry,2021-06-25 The COVID 19 pandemic drastically transformed the classroom by keeping students and teachers apart for the sake of safety As schools emptied remote learning rapidly expanded through online services and video chatrooms Unfortunately this disrupted many students and teachers who were not accustomed to remote classrooms This challenge has forced K 12 teachers to think differently about teaching Unexpectedly and with little time to prepare they have been confronted with redesigning their curriculum and instruction from face to face to online virtual classrooms to protect students from the COVID 19 virus while ensuring that these new online initiatives remain sustainable and useful in the post pandemic world As teachers learn to take advantage of the affordances and strengths of the multiple technologies available for virtual classroom instruction their instruction both in online and face to face will impact what and how students learn in the 21st century The Handbook of Research on Transforming Teachers Online Pedagogical Reasoning for Engaging K 12 Students in Virtual Learning examines the best practices and pedagogical reasoning for designing online strategies that work for K 12 virtual learning The initial section provides foundational pedagogical ideas for constructing engaging virtual learning environments that leverage the unique strengths and opportunities while avoiding the weaknesses and threats of the online world The following chapters present instructional strategies for multiple grade levels and content areas best practices that work clearly describing why they work and the teachers pedagogical reasoning that supports online implementations The chapters provide ways to think about teaching in virtual environments that can be used to guide instructional strategy choices and recognizes the fundamental differences between face to face and virtual environments as an essential design component Covering such topics as K 12 classrooms pedagogical reasoning and virtual learning this text is perfect for professors teachers students educational designers and developers instructional technology faculty distance learning faculty and researchers interested in the subject

Brain Words J. Richard Gentry, Gene P. Ouellette, 2023-10-10 The past two decades have brought giant leaps in our understanding of how the brain works But these discoveries and all their exciting implications have yet to make their way into most classrooms In Brain Words How the Science of Reading Informs Teaching authors J Richard Gentry and Gene Ouellette bring their original research based framework of brain words dictionaries in the brain where students store and automatically access sounds spellings and meaning This book aims to fill the gap between the science of reading and classroom instruction by providing up to date knowledge about reading and neurological circuitry including evidence that spelling is at the core of the reading brain Brain Words will show how children s brains develop as they become readers and discover ways you can take concrete steps to promote this critical developmental passage including Incorporating tools to

recognize what works what doesn't and why Practical classroom activities for daily teaching and student assessment Insights about what brain research tells us about whole language and phonics first movements Deepened understanding of dyslexia through the enhanced lens of brain science With the insights and strategies of Brain Words you can meet your students where they are and ensure they gain confidence as readers spellers and writers
