**End of an Era** Carl Minzner, 2018-02-01 China's reform era is ending. Core factors that characterized its political stability, ideological openness, and rapid economic growth are unraveling. Since the 1990s, Beijing's leaders have firmly rejected any fundamental reform of their authoritarian one-party political system, and on the surface their efforts have been a success. But as Carl Minzner shows, a closer look at China's reform era reveals a different truth. Over the past three decades, a frozen political system has fueled both the rise of entrenched interests within the Communist Party itself and the systematic underdevelopment of institutions of governance among state and society at large. Economic cleavages have widened, social unrest has worsened, ideological polarization has deepened. Now to address these looming problems, China's leaders are progressively cannibalizing institutional norms and practices that have formed the bedrock of the regime's stability in the reform era. *End of an Era* explains how China arrived at this dangerous turning point and outlines the potential outcomes that could result.

Bringing together cutting-edge authors from academia, legal practice, and the technology industry, *Future Law* explores and leverages the power of human imagination in understanding, critiquing, and improving the legal responses to technological change. It focuses on the practical difficulties of applying law, policy, and ethical structures to emergent technologies both now and in the future. It covers crucial current issues such as big data, ethics, ubiquitous surveillance, and the Internet of Things, and disruptive technologies such as autonomous vehicles, DIY genetics, and robot agents. By using examples from popular culture such as books, films, TV, and Instagram, including *Black Mirror*, *Disney Princesses*, *Star Wars*, *Doctor Who*, and *Rick and Morty*, it brings hypothetical examples to life.
