*Fiber* Susan Crawford,2018-01-01 The world of fiber optic connections reaching neighborhoods homes and businesses will represent as great a change from what came before as the advent of electricity The virtually unlimited amounts of data we ll be able to send and receive through fiber optic connections will enable a degree of virtual presence that will radically transform health care education urban administration and services agriculture retail sales and offices Yet all of those transformations will pale compared with the innovations and new industries that we can t even imagine today In a fascinating account combining policy expertise and compelling on the ground reporting Susan Crawford reveals how the giant corporations that control cable and internet access in the United States use their tremendous lobbying power to tilt the playing field against competition holding back the infrastructure improvements necessary for the country to move forward And she shows how a few cities and towns are fighting monopoly power to bring the next technological revolution to their communities

**Popular Music in a Digital Music Economy** Tim Anderson,2013-12-17 In the late 1990s the MP3 became the de facto standard for digital audio files and the networked computer began to claim a significant place in the lives of more and more listeners The dovetailing of these two circumstances is the basis of a new mode of musical production and distribution where new practices emerge This book is not a definitive statement about what the new music industry is Rather it is devoted to what this new industry is becoming by examining these practices as experiments dedicated to negotiating what is replacing an object based industry oriented around the production and exchange of physical recordings In this new economy constant attention is paid to the production and licensing of intellectual property and the rise of the social musician who has been encouraged to become more entrepreneurial Finally every element of the industry now must consider a new type of audience the end user and their productive and distributive capacities around which services and musicians must orient their practices and investments
