### Part I – A Well-Baby Exam

Robert handled three-month-old Hayden's carrier and held open the door for his wife, Carrie. "Any particular concerns about Hayden today?" asked Dr. O'Dell as they entered the examination room.

As she lifted Hayden from the carrier, Carrie said, "I don't think that Hayden is growing as fast as James did. And she might be running a slight fever."

Dr. O'Dell examined Hayden and checked her computer files. "Hayden's temperature is somewhat elevated, and her skin is damp, and her pulse is higher than I'd like."

She tilted the screen so both parents could see. "From this graph, it appears that Hayden is falling behind her expected weight curve. Are you still breastfeeding her? Breast-fed babies tend to have slightly lower body weights."

"We shifted to formula after the first month, so that makes two months on formula now," replied Carrie.

"Does she eat well?"

"No problem with that. She's always hungry," Carrie answered, as Hayden pumped small fists in the air and screeched in agreement. "And fussy."

Robert added, "I'm worried about Carrie, too. She has some of the same symptoms as Hayden. And she's not sleeping well either."

Carrie smiled tiredly, pushing back a strand of hair. "Hot and bothered seems to be my middle name these days."

"Demands of a new baby can be exhausting, as you know. Some irritability can be expected," Dr. O'Dell glanced at Robert, "especially if you aren't getting enough sleep."

"Robert helps out," Carrie said quickly. "Lots of things bug me right now, that's all. I'm sure it's nothing."

"But it's got to be something," insisted Robert. "Carrie's always complaining about how warm the house is, and she's lost weight."

"Robert!" "Carrie, I'm worried!"

Dr. O'Dell shifted from Hayden to examining Carrie. After collecting her vital signs, Dr. O'Dell manipulated the glands in Carrie's throat area and frowned. "You do seem to share several of Hayden's symptoms, like her elevated body temperature and rapid pulse, but I'm more concerned about this thyroid enlargement. How much do you know about the thyroid gland and how it operates?"

Both parents shook their heads, as Hayden gurgled.

"Hayden wants to know too," Carrie said, trying to lighten the mood.

Dr. O'Dell smiled. "You know how much I like my patients to have background knowledge, but the thyroid situation is pretty complicated. I'll just stick to the main points today to get you up to
