ideas to fruition It demonstrates perhaps most of all just what can be achieved from close collaboration between physicians and scientists bringing all the powers of physics to bear in the fight against cancer For a field to grow and for the community of patients to be best served it s necessary to learn grow improve and share the way it has been done at PSI This book provides a look at that extremely important perspective I for one read it with great pleasure Jay Flanz Project Director and Technical Director of the Burr Proton Therapy Center Massachusetts General Hospital Machine Design ,1973 **The New Century Dictionary of the English Language** Hulbert G.
