Table 1: Introduction, Constraints and Program Name (Steps 1-3)

<p>Introduction Provide a short introduction to the recreation program and evaluation plan.</p>	<p>The recreational program that will be outlined in this evaluation plan is The Boys & Girls Athletic Club. This recreational program can be explained as a weekly "gym class" for individuals of all ages to enjoy recreation and leisure activities. However, the initial launch of the BGAC will be tailored to older individuals looking for consistent and enjoyable recreational activities (Ages 21 – 60). The members of the BGAC will be joining a program that offers physical activity, team orientated sports, engagement with other like-minded individuals and a public space to develop new interests/hobbies. We will evaluate if the program has been successful by developing short- and long-term questions. The questions will be answered to evaluate possible program outcomes, the effect of constraints to participating individuals and if the recreational plan was successful. I look forward to introducing the idea.</p>

A New Planning Template for Transit-oriented Development Dick Nelson, 2001 The Mineta Transportation Institute MTI at San Jos State University assigned a project team to design a planning template for transit oriented development TOD that incorporates an understanding of nonwork travel that is trips for shopping eating out and engaging in recreational and cultural activities Nonwork trips are growing in significance and now account for four of every five trips At the same time TOD has become a popular planning response to the impacts of metropolitan growth Some planners believe that TOD will induce more pedestrian and transit trips and will reduce the average length and frequency of household auto travel This effect is assumed to result from improved accessibility to employment and nonwork venues located in compact mixed use centers Planning professionals in many MPOs also suggest that if multiple centers are linked by high quality transit such as

light or heavy rail access is enabled to the broad range of nonwork activities
