Differences Between IFRS And German GAAP:

Comparative International Accounting, 14th Edition Christopher Nobes, Robert B. Parker, Robert H. Parker, 2020
Now in its 14th edition Nobes and Parker's Comparative International Accounting is a comprehensive and coherent text on international financial reporting. It is primarily designed for undergraduate and postgraduate courses in comparative and international aspects of financial reporting. The book explores the conceptual and contextual foundations of consolidated financial statements in IAS/IFRS and German GAAP - Major differences explained. Khanh Pham-Gia, 2009-07-24. Research Paper
undergraduate from the year 2008 in the subject Business economics Business Management Corporate Governance grade 1.3
University of applied sciences Munich language English abstract
Due to a regulation of the European Union EU concerning financial accounting issued on June 6th 2002 all listed companies in EU are obligated to provide their Consolidated Financial Statements (CFS) in accordance with financial accounting principles of International Accounting Standards (IAS) or International Financial Reporting Standards (IFRS) from January 1st 2005. This regulation enables a necessary harmonization of accounting principles within the EU and supports a clear comparability of CFS worldwide. The object of this study is to analyze major differences of CFS in German GAAP and IAS/IFRS. Thereby variations of both accounting standards are compared and a major difference is explained thoroughly with a concrete example. The major differences of CFS in IAS/IFRS and German GAAP result from different aims of both accounting standards. The German GAAP is strongly based on the prudence principle for protection of creditors and authoritative principle tax accounting based on commercial accounting. In comparison the IAS/IFRS deliver potential investors realistic and decision useful information about assets, finance and profit situations of a company. True and fair view, fair presentation principle. These basic principles could be reflected in several key points of the both accounting standards whose differences are clarified in this study. Furthermore, an essential key point of CFS, namely the basis of consolidation, contains enterprises included in the consolidation and capital consolidation methods is illuminated with a concrete example. Hereby the relation between the control influence of the parent enterprise on its sub entities and the correspondent capital consolidation methods are studied.

Voluntary Implementation of IFRS in German Non-Listed Companies Nadine Wiese, 2009-11. Bachelor Thesis from the year 2008 in the subject Business economics Accounting and Taxes grade 1.0. University of the West of England Bristol Bristol Business School course Accounting in Context language English abstract
This report addresses the question whether unlisted German companies should voluntarily adopt IFRS. Benefits for internal as well as external users are discovered including facilitated international comparability and higher quality of financial reports. Furthermore, a comparison reveals that equity figures and volatility are higher under IFRS than under German GAAP. It is discovered that national economic and political circumstances significantly influence reporting practices and thus quality and comparability. Combined with fair value accounting which is of lower reliability as there are no active markets from which values can be derived, IFRS not necessarily seems to be a better

alternative compared to German GAAP Moreover because IFRS is primarily intended for listed companies and investors needs IFRS only appears to be an alternative for non listed companies that plan a listing In general the complex and costly implementation process must be outweighed thoroughly If costs prevail other possibilities represent IFRS for SMEs or the continuation of German GAAP

Ebook: International Accounting Timothy Douplik, Hector Perera, 2014-10-16 The Fourth Edition of International Accounting provides an overview of the broadly defined area of international accounting but also focuses on the accounting issues related to international business activities and foreign operations This edition also includes substantially updated coverage of the International Accounting Standards Board IASB and International Financial Reporting Standards IFRS The unique benefits of this textbook include its up to date coverage of relevant material extensive numerical examples provided in most chapters two chapters devoted to the application of International Financial Reporting Standards IFRS and coverage of nontraditional but important topics such as strategic accounting issues of multinational companies international corporate governance and corporate social responsibility reporting
