Dance of Disruption and Creation Nandu Nandkishore, Neeraj Chandra, 2023-08-18. It's an exciting time to be alive. We are witness to an epoch of change, a dance of disruption and creation that is re-imagining our world. Where are these disruptions coming from? What opportunities do they uncover? How can one make sense of them? And most importantly, how should one prepare and act? This book, written by two influential business leaders, unpacks these epochal changes and how they represent a defining moment of opportunity for the world of business. Nandu Nandkishore and Neeraj Chandra draw upon diverse sources: academic literature, discussions with CEOs, startup founders, and experts in order to understand the significant pivots of change emerging from a wide canvas and then stitch together a perspective of an exciting, brave new world. Unlike many other books that focus only on emerging technologies, the authors here look at disruption through several lenses: technology, demographics, economic change, the changing nature of institutions, and the interplay of technology as it fundamentally shapes consumers and society. The book goes beyond describing changes taking place; it explores the why, so and so, what to provide an understanding of the shifts taking place and crucially, the implications for the world of enterprise. Using simple examples and frameworks throughout, the book provides specific, action-oriented solutions that businesses can employ. This book will be of specific interest to business leaders, strategists, investment professionals, as well as social scientists and public servants. It is for change-makers who are excited to seize the unique opportunity that this change represents to build competitive advantage, re-invent markets, and enterprise, and indeed to make the world a better place.
