The transHuman Code Carlos Moreira,David Fergusson,2019-06-04 A Humanitarian Approach to a Technologically Innovative Future In The transHuman Code authors Carlos Moreira and David Fergusson ask Are we building a better future for humanity with the help of magnificent technology or are we instead building a better future of better technology at the expense of humanity We must learn to put humanity first instead of getting caught up in the promise of technological advancement Humans have been able to adapt morph and compromise in every situation we have faced over the centuries and have been able to maintain dominance We must approach the promises of technology with the same

adaptability What the authors propose is that if we start the design of the transHuman future from a human perspective making sure that technology will inspire revolution or evolution then we can ensure humanity continues to thrive The transHuman Code tries to center humanity in the emerging tension between a human controlled or a machine controlled world Moreira and Fergusson examine how humans can maintain the uniqueness and the humanity in this brave new world
