From Newton To Einstein 2nd Edition:

From Newton to Einstein (SECOND EDITION, REVISED AND ENLARGED) Benjamin Harrow,2021-11-05 Einstein s contributions to our ideas of time and space and to our knowledge of the universe in general are of so momentous a nature that they easily take their place among the two or three greatest achievements of the twentieth century This little book attempts to give in popular form an account of this work As however Einstein s work is so largely dependent upon the work of Newton and Newton s successors the first two chapters are devoted to the latter The preparation of this new edition has made it possible to correct errors to further amplify certain portions of the text and to enlarge the ever increasing bibliography on the subject Photographs of Professors J J Thomson Michelson Minkowski and Lorentz are also new features in this edition The explanatory notes and articles in the Appendix will I believe present no difficulties to readers who have mastered the contents of the book They are in fact popular expositions of various phases of the Einstein theory but experience has shown that even popular expositions of the theory need further popular introductions I wish to take this opportunity of thanking Prof Einstein Prof A A Michelson of the University of Chicago Prof J S Ames of Johns Hopkins University and Professor G B Pegram of Columbia University for help in various ways which they were good enough to extend to me Prof J S Ames and the editor of Science have been kind enough to allow me to reprint the former s excellent presidential address on Einstein s theory delivered before the members of the American Physical Society **The Evolution of Scientific Thought, from Newton to Einstein, by A. D'Abro. 2nd Edition...** A. d' Abro,1950 Library Journal ,1921

Glasgow Astronomical Circular ,1927 Library Journal Melvil Dewey,Richard Rogers Bowker,L. Pylodet,Charles Ammi Cutter,Bertine Emma Weston,Karl Brown,Helen E. Wessells,1921 Includes beginning Sept 15 1954 and on the 15th of each month Sept May a special section School library journal ISSN 0000 0035 called Junior libraries 1954 May 1961 Issued also separately **Merck's Report** Theodore Weicker,1928 **The Genesis of General Relativity** Jürgen Renn,2007-02-16 This four volume work represents the most comprehensive documentation and study of the creation of general relativity Einstein s 1912 Zurich notebook is published for the first time in facsimile and transcript and commented on by today s major historians of science Additional sources from Einstein and others who from the late 19th to the early 20th century contributed to this monumental development are presented here in translation for the first time The volumes offer detailed commentaries and analyses of these sources that are based on a close reading of these documents supplemented by interpretations by the leading historians of relativity English Mechanics ,1923 **The Publishers Weekly** ,1928
