100 of the Worst Ideas in History Michael N. Smith, Eric Kasum, 2014-06-03 What were they thinking Ever since Adam snacked on the forbidden fruit and was chased naked out of the Garden of Eden mankind has bitten off a bevy of bad ideas From skinny dipping Presidents to toxic tooth fillings to singing pop stars who can't carry a tune 100 of the Worst Ideas in History is a celebration of humanity's historical and often hysterical missteps that have started wars sunk countries wrecked companies scuttled careers lost millions and even endangered the Earth Discover How a confused chauffeur helped start World War I Who turned down the greatest product placement opportunity in Hollywood history How a Chicago White Sox game helped hasten the demise of disco The toad that nearly ate Australia The most dangerous children's game ever invented And so much more of so much less Spanning politics pop culture fashion sports technology and more this irreverent and witty book is packed with fun photos and sidebars tracing how these thundering brainstorming turned into blundering brain farts and the astonishing impacts our faux pas and foibles still have on us today Alcoholism Maria L. Gifford, 2009-10-22 An intriguing look at the history of alcoholism and its dramatic effects from the first fermented grape to current advances in genetic research Alcoholism tells the story of a disease familiar to many yet not well understood It is the first biography of alcohol abuse that gauges its devastating effects on the body the family the economy and the community Alcoholism provides the latest understanding of the disease as a behavioral dysfunction and a biological condition Coverage includes the origins of alcohol and the discovery of alcoholism as a medical disease the biology of alcoholism and its effects on the body and current diagnostic and treatment methods for alcoholism In addition the book explores the effects on society of such alcoholism related problems as domestic abuse fetal alcohol syndrome drunk driving and suicide as well as promising new directions in alcoholism research awareness treatment and prevention *The American Presidents From Polk to Hayes* Robert A. Nowlan, Ph.D., 2016-01-31 American Presidents Polk to Hayes What They Did What They Said What Was Said About Them is the second book in a planned five volume series covering all the Presidents These 43 men so far have succeeded in some regards and failed in others as they strove to do the best they could in what is surely one of the most difficult jobs in the world Only they can truly appreciate what it takes to be the president Others can only speculate People feel strongly about U S Presidents Some they admire others they hate It is fair game to criticize a president's actions and policies However questioning their commitment to American ideals seems like hitting below the belt There are no willing villains Most people can find justification for their actions beliefs and prejudices Each president strove to do the best he could for the nation and its people This goal of the book is not to praise presidents nor is it to condemn them The subtitle of each of the five books in the series What They Did What They Said What Was Said About Them perfectly describes the approach adopted to tell their stories in a unique way meant to entertain as well as inform Readers are asked to make their own judgments of the presidencies based on more information than the semi-myths they may recall History courses or what is

preached in the many longstanding and despicable negative campaigning mudslinging and character assassination reports they hear from partisans One can find much to admire about each of the presidents and unfortunately much to deplore Soldiers are told that in giving salutes to officers is not honoring the individuals but rather their rank If there are presidents readers just feel they cannot salute hopefully they can salute the presidency
