

Max's New Bike

Max loves to ride his bike everywhere he goes. But, Max felt that as he was growing, he was too big for his old bike. Max wanted and needed a new one that fit him better. Max and his dad went to the bike shop to look for a new bike. Max's eyes lit up at all of the shiny new bikes. He tried out many new bikes, but none of them felt right. Just as Max was about to give up, he noticed a shiny red bike in the corner of the store. It was just his size and it had everything he was looking for in a bike. The only problem was that it was a bit more money than he had. Max's dad asked the shopkeeper if there were any sales coming up. The shopkeeper told Max's dad that today there was a big sale on the red bike! Max couldn't believe his luck! He jumped on the bike and rode it around the store with a big smile on his face. He loved the red bike and it fit him well. Max and his father bought the bike, and Max couldn't wait to take his new bike out for a ride. He spent the next day riding his new red bike. From that day on, Max was never seen without his bike. Max knew that he had found the best bike ever and was so happy for the one day sale that made it all happen.

Max Streaming Reading Comprehension Tips:

Theory and Practice of Specialised Online Dictionaries Pedro A. Fuertes-Olivera, Sven Tarp, 2014-09-23 This book is the first comprehensive monograph on the Function Theory of Lexicography which originated at the Aarhus School of Business Aarhus University Function Theory considers dictionaries to be tools that are constructed for assisting specific users with punctual needs in specific usage situations e g communicative oriented situations and cognitive oriented situations The book s main focus is on defending the independent academic status of lexicography and its corollary The process of designing compiling and updating specialised online dictionaries needs a theoretical framework that addresses general and specific aspects The former are common to all types of information tools the latter are mainly dependent on the media for which the information tool is constructed and their specific target users This books offers both aspects and moves from the highest level of abstraction to very detailed aspects of lexicographic work e g how to convert an originally conceived polyfunctional online dictionary into several monofunctional usage based ones The book illustrates that the theory and the methodology currently used by advocates of the Function Theory of Lexicography offers better results than other approaches and therefore makes its case for proposing the Function Theory for terminological terminographical work
