*Social Reading Cultures on BookTube, Bookstagram, and BookTok* Bronwyn Reddan, Leonie Rutherford, Amy Schoonens, Michael Dezuanni, 2024-04-30 This book examines the reading cultures developed by communities of readers and book lovers on BookTube Bookstagram and BookTok as an increasingly important influence on contemporary book and literary culture It explores how the affordances of social media platforms invite readers to participate in social reading communities and engage in creative and curatorial practices that express their identity as readers and book lovers The interdisciplinary team of authors argue that by creating new opportunities for readers to engage in social reading practices bookish social media has elevated the agency and visibility of readers and book consumers within literary culture It has also reshaped the cultural and economic dynamics of book recommendations by creating a space in which different actors are able to form an identity as mediators of reading culture Concise and accessible this introduction to an increasingly central set of literary practices is essential reading for students and scholars of literature sociology media and cultural studies as well as teachers and professionals in the book and library industries [TikTok Cultures in the United States](#) Trevor Boffone, 2022-04-03 TikTok Cultures in the United States examines the role of TikTok in US popular culture paying close attention to the app's growing body of subcultures Featuring an array of scholars from varied disciplines and backgrounds this book uses TikTok sub cultures as a point of departure from which to explore TikTok's role in US popular culture today Engaging with the extensive and growing scholarship on TikTok from international scholars chapters in this book create frameworks and blueprints from which to analyze TikTok within a distinctly US context examining topics such as gender and sexuality feminism race and ethnicity and wellness Shaping TikTok as an interdisciplinary field in and of itself this insightful and timely volume will be of great interest to students and scholars of new and digital media social media popular culture communication studies sociology of media dance gender studies and performance studies *The Digital Future of English* Simone Murray, 2025-07-18 More than any other academic discipline literary studies is the creation of print culture How then can it thrive in the digital era Early 1990s predictions of the book's imminent demise presented a simplistic either/or choice between the legacy of moribund print and triumphalist digital technology Yet we have grown to experience the two media as complexly interdependent and even complementary Clearly digital does not kill print But literary studies in the digital era cannot simply resume business as usual It is urgently necessary to reconsider the discipline's founding assumptions in light of digital technology The digital era prompts a rethinking of literary studies object of study as well as its methods theories audiences and pedagogical practices What counts as literature necessarily shifts in an age of proliferating born digital texts and do it yourself DIY online publication Where should literary studies sit institutionally and how might it graft contextually oriented social sciences methods onto its traditionally humanistic mode of textual analysis Why should literary study continue to marginalize emotional responses to texts when online communities bond via readerly affect Who is the audience for

literary criticism in an age where expertise is routinely challenged yet communication with global book loving publics has never been technologically easier Finally how can we utilize digital tools to rejuvenate literary studies pedagogy and help English staff better connect with millennial age students Literary studies has been convulsed for decades by debates over electronic literature and more recently digitally aided distant reading But these discussions still mostly confine themselves to demarcating our proper object of study We need to think more expansively about digital technology s impact on the underpinning tenets of the discipline Literary Media Studies is pitched at fellow literary scholars book historians media theorists cultural sociologists digital humanists and those working at the interface of these converging disciplines It models constructive engagement with contemporary digital culture Most importantly it brings a burst of sorely needed optimism to the question of literary studies digital future

McIntire, 2022-09-20 Once upon a time there was a little boy His belly full of laughter his life full of joy Until one day
