Commerce, Justice, Science, and Related Agencies Appropriations for 2016 United States. Congress. House. Committee on Appropriations. Subcommittee on Commerce, Justice, Science, and Related Agencies, 2015 **Working with Vulnerable Children, Young People and Families** Graham Brotherton, Mark Cronin, 2020-10-11 This fully revised and expanded edition considers the meaning of vulnerability a key concept in early intervention and the relationship between vulnerability and the individual communities and society It includes new chapters on children s voices young people and vulnerability and working with vulnerable parents Introducing students to a broad debate around what constitutes vulnerability and related concepts such as risk and resilience it examines how vulnerability has been conceptualised by policy makers with a clear focus on early intervention for preventing social problems later in life It adopts a case study approach using chapters examining the concept of vulnerability from sociological psychological and social policy perspectives before looking at examples around leaving care victims of violence sexual abuse and the Internet Supporting students in engaging with and evaluating the conceptualisation and application of vulnerability in professional practice this book is suitable for anyone either preparing for or currently working within the children s workforce from social work and health care to education and youth work *The Complacent Class* Tyler Cowen, 2017-02-28 A Wall Street Journal and Washington Post Bestseller Tyler Cowen s blog Marginal Revolution is the first thing I read every morning And his brilliant new book *The Complacent Class* has been on my nightstand after I devoured it in one sitting I am at round the clock Cowen saturation right now Malcolm Gladwell Since Alexis de Tocqueville restlessness has been accepted as a signature American trait Our willingness to move take risks and adapt to change have produced a dynamic economy and a tradition of innovation from Ben Franklin to Steve Jobs The problem according to legendary blogger economist and best selling author Tyler Cowen is that Americans today have broken from this tradition we re working harder than ever to avoid change We re moving residences less marrying people more like ourselves and choosing our music and our mates based on algorithms that wall us off from anything that might be too new or too different Match com matches us in love Spotify and Pandora match us in music Facebook matches us to just about everything else Of course this matching culture brings tremendous positives music we like partners who make us happy neighbors who want the same things We re more comfortable But according to Cowen there are significant collateral downsides attending this comfort among them heightened inequality and segregation and decreased incentives to innovate and create *The Complacent Class* argues that this cannot go on forever We are postponing change due to our near sightedness and extreme desire for comfort but ultimately this will make change when it comes harder The forces unleashed by the Great Stagnation will eventually lead to a major fiscal and budgetary crisis impossibly expensive rentals for our most attractive cities worsening of residential segregation and a decline in our work ethic The only way to avoid this difficult future is for Americans to force themselves out of their comfortable slumber to embrace their restless tradition again

Bordering Nira Yuval-Davis, Georgie Wemyss, Kathryn Cassidy, 2019-06-10 Controlling national borders has once again become a key concern of contemporary states and a highly contentious issue in social and political life But controlling borders is about much more than patrolling territorial boundaries at the edges of states it now comprises a multitude of practices that take place at different levels some at the edges of states and some in the local contexts of everyday life in workplaces in hospitals in schools which taken together construct reproduce and contest borders and the rights and obligations associated with belonging to a nation state This book is a systematic exploration of the practices and processes that now define state bordering and the role it plays in national and global governance Based on original research it goes well beyond traditional approaches to the study of migration and racism showing how these processes affect all members of society not just the marginalized others The uncertainties arising from these processes mean that more and more people find themselves living in grey zones excluded from any form of protection and often denied basic human rights **Unfinished Business** Tamim A.
