admissions journey **Research Handbook on University Rankings** Hazelkorn, Ellen, Mihut, Georgiana, 2021-12-10
Gathering unique and thoughtful contributions from leading international scholars this timely Research Handbook offers diverse perspectives on university rankings twenty years after the first global rankings emerged It presents an in depth analysis that reflects the current state of research on rankings their influence and impact **Influence of University**

Rankings on Institutions: Ethics, Controversies, and Competition Kayyali, Mustafa, 2025-10-16 The influence of university rankings on higher education institutions reveals ethical concerns controversies and increased global competition As rankings become a measure of academic prestige many universities align their strategies with ranking criteria sometimes at the expense of educational values This pursuit of higher rankings often drives institutions to invest in research output and international visibility while potentially neglecting teaching quality or community engagement Criticisms emerge over the transparency and fairness of ranking methodologies raising questions about their validity and the consequences they produce Further exploration into the ethical implications of rankings may reveal new contentious practices and competitive dynamics shaped by the prioritization of university rankings **Influence of University Rankings on Institutions Ethics Controversies and Competition** explores how the pursuit of higher university rankings influences institutional priorities behaviors and decision making processes It examines the ethical dilemmas methodological controversies and competitive pressures that arise from global ranking systems This book covers topics such as mental health teacher education and ethics and bias and is a useful resource for educators policymakers government officials psychologists academicians researchers and scientists

University Rankings William Yat Wai Lo, 2014-02-17 This book adopts a qualitative case study approach to provide the readers with a systematic delineation and interpretation of the implications of the university ranking phenomenon for Taiwan s higher education system It reviews the literature on different theories concerning the global transformation of higher education and presents basic information on higher education in Taiwan The author develops a four dimensional framework for the analysis of the ranking phenomenon in the island state First the technological ecological dimension aims to look into how the rankings have impacted Taiwan s higher education based on empirical findings from five Taiwanese public universities Next the technological geographical dimension examines how Taiwan can use rankings to promote its interests in global higher education The two conceptual dimensions focus on the relationship between the rankings and power in higher education They show how the phenomenon can be read and explained through theoretical lenses from ecological and geographical perspectives From an ecological perspective the empirical evidence suggests that the influence of rankings varies throughout the academic hierarchy in Taiwan The theoretical analysis then illustrates the relationship between the ranking phenomenon and the power structure in academic hierarchy Geographically while the empirical analysis is based on data from Taiwan the theoretical analysis offers essential insights that help readers to understand the changing global landscape of higher education and its implications in East Asia *The Best 388 Colleges, 2023* The Princeton Review, Robert
