Human Development and Interaction in the Age of Ubiquitous Technology Rahman, Hakikur, 2016-06-27 The human condition is affected by numerous factors in modern society In modern times technology is so integrated into culture that it has become necessary to perform even daily functions Human Development and Interaction in the Age of Ubiquitous Technology is an authoritative reference source for the latest scholarly research on the widespread integration of technological innovations around the globe and examines how human computer interaction affects various aspects of people s lives Featuring emergent research from theoretical perspectives and case studies this book is ideally designed for professionals students practitioners and academicians

The Meritocracy Trap Daniel Markovits, 2020-09-08 A revolutionary new argument from eminent Yale Law professor Daniel Markovits attacking the false promise of meritocracy It is an axiom of American life that advantage should be earned through ability and effort Even as the country divides itself at every turn the meritocratic ideal that social and economic rewards should follow achievement rather than breeding reigns supreme Both Democrats and Republicans insistently repeat meritocratic notions Meritocracy cuts to the heart of who we are It sustains the American dream But what if both up and down the social ladder meritocracy is a sham Today meritocracy has become exactly what it was conceived to resist a mechanism for the concentration and dynastic transmission of wealth and privilege across generations Upward mobility has become a fantasy and the embattled middle classes are now more likely to sink into the working poor than to rise into the professional elite At the same time meritocracy now ensnares even those who manage to claw their way to the top requiring rich adults to work with crushing intensity exploiting their expensive educations in order to extract a return All this is not the result of deviations or retreats from meritocracy but rather stems directly from meritocracy s successes This is the radical argument that Daniel Markovits prosecutes with rare force Markovits is well placed to expose the sham of meritocracy Having spent his life at elite universities he knows from the inside the corrosive system we are trapped within Markovits also knows that if we understand that meritocratic inequality produces near universal harm we can cure it When The Meritocracy Trap reveals the inner workings of the meritocratic machine it also illuminates the first steps outward towards a new world that might once again afford dignity and prosperity to the American people

Government of the Rich 190 I. D. Oro, In a parallel universe President Automated wins the 2016 Presidential Election promising to Make America Automated Again The Tax Cuts for the Rich 1% and Automate all Jobs Act or the GOPTaxScam as he calls it on Twitter com has been in place since January 2017 Now businesses get free robots computers and machines to do all the jobs in the United States of America Massive unemployment follows as businesses record historic profits President Automated eliminates the government s social safety net programs and alters the tax brackets to benefit the rich one percent Alternative facts rule as lies run rampant to hide the truth about automation taking over everyone s jobs President Automated uses alternative facts to assure everyone that their job is safe from automation and
