Innovation in Pricing Andreas Hinterhuber, Stephan M. Liozu, 2017-08-08 Pricing has a substantial and immediate impact on profitability. Most companies however still use costs or competition as their main basis for setting prices. Product or business model innovation has a high priority for many companies yet innovation in pricing received scant attention until the first edition of this groundbreaking book. This new edition of *Innovation in Pricing* builds on the success of the first examining the ways in which pricing innovation can drive profits through cutting edge academic research and best practice case studies from leading academics, business practitioners and consultants in pricing. The second edition has been fully revised and updated according to the latest developments in pricing with revisions to all chapters, new chapters including a chapter on business model and pricing model innovation, a new introduction that makes explicit just what strategic pricing can do for your organization. This book is the only book dedicated to innovation in pricing and is an essential read for business executives, innovation managers and pricing managers wishing to treat innovation in pricing as seriously as they treat product service or business model innovation. It is also valuable supplementary reading for advanced students of marketing and sales.

[Excessive Pricing and Competition Law Enforcement](#) Yannis Katsoulacos, Frédéric Jenny, 2018-09-12 This volume examines the controversy surrounding the use of competition law to combat excessive pricing. While high or monopolistic pricing is not regarded as an antitrust violation in the US, employing abuse of dominance provisions in competition laws to fight excessive pricing has gained popularity in some BRICS jurisdictions and a number of EU member states in recent years. The book begins by discussing the economic arguments for and against the prohibition of excessive or unfair prices by firms with market power. It then presents various country studies focusing on developed countries such as the UK and Israel and on the BRICS countries to highlight various practical challenges involved in recognizing excessive prices as abusive conduct on the part of dominant firms, including how to define, measure and identify excessive prices. The contributors also discuss other policy options that can be used to fight excessive prices in order to protect consumer welfare.

[Python Web Scraping Projects for Absolute Beginners: Automate Tasks, Extract Data, and Build Real-World Tools Step-by-Step](#) Liam Steele, 2026-03-20 Stop wasting hours on repetitive online tasks. This beginner friendly guide shows you exactly how to automate data collection, extract valuable information from websites and build practical tools using Python. No prior experience required. *Python Web Scraping Projects for Absolute Beginners* is a hands on project based book designed to take you from zero to real world results. Instead of theory you'll learn by building useful tools you can actually apply in work, freelancing or personal productivity. Inside you'll learn how to extract data from websites and structure it into clean, usable formats. Automate repetitive tasks like data entry, file organization and reporting. Build scripts that download images, track prices and monitor competitors. Create Excel reports automatically using real data. Collect business leads and organize them for outreach. Handle messy data and turn it into professional datasets. Schedule scripts to run automatically, hands free.

automation Turn simple scripts into reusable tools and systems Avoid common beginner mistakes like getting blocked or collecting bad data Every chapter follows a clear practical format Problem Explanation Code Breakdown Result You won't just learn how web scraping works you'll understand how to use it to solve real problems Whether you're a freelancer office worker small business owner or beginner programmer this book gives you the exact skills to start building automation tools immediately By the end of this book you won't just know Python you'll know how to use it to save time create value and even generate income

Advances in Networks, Intelligence and Computing Ashok Kumar, Geeta Sharma, Anil Sharma, Pooja Chopra, Punam Rattan, 2024-05-24 The year 2023 marks the 100th birth anniversary of E F Codd 19 August 1923 18 April 2003 a computer scientist who while working for IBM invented the relational model for database management the theoretical basis for relational databases and relational database management systems He made other valuable contributions to computer science but the relational model a very influential general theory of data management remains his most mentioned analyzed and celebrated achievement School of Computer Application under the aegis of Lovely Professional University pays homage to this great scientist of all times by hosting CODD100 International Conference on Networks Intelligence and Computing ICONIC 2023
