,2012-06-03 **Never Lost Again** Bill Kilday, 2018-05-29 As enlightening as The Facebook Effect Elon Musk and Chaos  
Monkeys the compelling behind the scenes story of the creation of one of the most essential applications ever devised and the  
rag tag team that built it and changed how we navigate the world Never Lost Again chronicles the evolution of mapping  
technology the overnight success twenty years in the making Bill Kilday takes us behind the scenes of the tech s development  
and introduces to the team that gave us not only Google Maps but Google Earth and most recently Pok mon GO He takes us  
back to the beginning to Keyhole a cash strapped startup mapping company started by a small town Texas boy named John  
Hanke that nearly folded when the tech bubble burst While a contract with the CIA kept them afloat the company s big break  
came with the first invasion of Iraq CNN used their technology to cover the war and made it famous Then Google came on  
the scene buying the company and relaunching the software as Google Maps and Google Earth Eventually Hanke s original  
company was spun back out of Google and is now responsible for Pok mon GO and the upcoming Harry Potter Wizards Unite  
Kilday the marketing director for Keyhole and Google Maps was there from the earliest days and offers a personal look  
behind the scenes at the tech and the minds developing it But this book isn t only a look back at the past it is also a glimpse  
of what s to come Kilday reveals how emerging map based technologies including virtual reality and driverless cars are going  
to upend our lives once again Never Lost Again shows us how our worldview changed dramatically as a result of vision  
imagination and implementation It s a crazy story And it all started with a really good map **New Scientist** ,2006

companies political parties and the powerful to dig up dirt on their enemies and if need be destroy them For decades private  
eyes from Allan Pinkerton who formed the first detective agency in the U S to Jules Kroll who transformed the investigations  
business by giving it a corporate veneer private spies were content to stand in the shadows Now that is all changing High  
profile stories grabbing recent headlines the Steele Dossier Black Cube the Theranos scandal Harvey Weinstein s attacks on  
his accusers all share a common thread the involvement of private spies Today operatives for hire are influencing  
presidential elections the news media government policies and the fortunes of companies They are also peering into our  
personal lives as never before using off the shelf technology to listen to our phone calls monitor our emails and decide what

we see on social media Private spying has never been cheaper and the business has never been more lucrative just as its power has never been more pervasive Spooked is a fast paced disturbing and at times hilarious tour through the shadowlands of private spying and its inhabitants a grab bag collection of ex intelligence operatives former journalists and lost souls In this hidden world information is currency double crosses are commonplace and hacking can be standard procedure Drawing on his journalistic expertise and unique access to sources Barry Meier uncovers the secrets private spies want to keep hidden
