Habit Rewire Kunal Nihore, Why do most people fail when trying to change their habits Because they try to change everything at once But real

transformation doesn't come from massive effort. It comes from tiny consistent actions repeated every day. In *Habit Rewire*, you'll discover the science-backed system for reshaping your behavior, identity, and daily routines using small changes that compound into extraordinary results. Drawing on modern behavioral science and habit research, this book shows how habits actually work and how you can redesign them to work in your favor. Inside this book, you will learn: The Habit Loop (Cue, Craving, Response, Reward) that controls your behavior; How 1% daily improvements create exponential life change; The power of Identity-Based Habits that make discipline automatic; The Keystone Habit Principle that triggers powerful chain reactions; How to design your environment for success instead of struggle; The 30-Day Habit Rewire Challenge to build unstoppable momentum; Simple systems for improving productivity, health, focus, and mindset. You'll also learn powerful tools like Habit Stacking, Temptation Bundling, Deep Work habits, Environment Design, Morning and Evening Rewiring Routines. This is not a book about motivation. It's a system for lasting transformation. Because when you change your habits, you change your identity. And when you change your identity, you change your life. Start today. Small actions. Massive impact.
