AI

Results-oriented AI professional with a proven track record of developing and implementing cutting-edge machine learning models and AI systems. Skilled in collaborating with cross-functional teams to achieve significant improvements in customer churn prediction accuracy, sentiment analysis, and image recognition. Strong expertise in predictive modeling, human-AI interaction, and optimizing AI-powered chatbots, resulting in cost savings, increased customer satisfaction, and improved operational efficiency.

WORK EXPERIENCE

AI 08/2021 – Present

SynthAI

- Spearheaded the development of a revolutionary quantum-enhanced AI system, increasing computational efficiency by 400% and reducing energy consumption by 75% across the organization's data centers.
- Led a cross-functional team of 50+ AI specialists and data scientists in implementing advanced federated learning techniques, enabling secure, privacy-preserving collaboration across 100+ global partners.
- Pioneered the integration of explainable AI (XAI) methodologies into critical decision-making processes, improving stakeholder trust by 85% and regulatory compliance by 100% in high-stakes industries.

AI Engineer 05/2019 – 07/2021

CogniTech

- Architected and deployed a cutting-edge natural language processing platform, processing over 1 billion multilingual interactions daily with 99.9% accuracy, resulting in a 40% increase in customer satisfaction scores.
- Optimized deep reinforcement learning algorithms for autonomous vehicle navigation, reducing collision rates by 98% and accelerating the company's path to market leadership by 18 months.
- Mentored a team of 25 junior AI researchers, resulting in 15 peer-reviewed publications and 3 breakthrough patents, elevating the company's reputation as an AI innovation leader.

AI Researcher 09/2018 – 04/2019

CogniTech

Resume Template Ai Tools 2025

Resume Template Ai Tools 2025:

Teaching and Assessing with AI: Teaching Ideas, Research, and Reflections Davide Girardelli, Kelly Merrill Jr, Amy Wanyu Ou, 2026-03-19

By the end of 2022 generative AI technologies based on large language models had become easily accessible and increasingly widespread. As disruptive technologies, their full impact and range of applications are still unfolding. Education is one of the six key application areas for generative AI identified by Chiarello et al 2024, alongside human resources, programming, office automation, social media, and search engines. In education, generative AI offers new possibilities for teaching and assessment, such as personalized tutoring, automated feedback, and adaptive systems (e.g., Jensen et al 2024). However, these innovations also present significant challenges that educators must navigate to ensure that all learners may benefit from them. Specifically, educators are called to tackle, among other things, the changing dynamics of teacher-student communication, the shifting nature of their role, ethical concerns in assessment, and the impact of generative AI on intercultural understanding in increasingly diverse education settings.

The aim of this Research Topic is to offer a platform for researchers and educators to reflect on the impact of these technological shifts on classroom culture and to share innovative pedagogical experiments that enhance teaching and assessing practices. The editorial team has chosen a short paper format to capture fresh ideas, conversations, and pedagogical experimentations, making them easily accessible to a wider audience of researchers and teachers. This multidisciplinary project welcomes contributions from teachers and researchers across a variety of fields (e.g., communication, education, computer science, economics, mathematics, and biology). We are particularly interested in practices with cross-disciplinary relevance that can shape classroom cultures at the tertiary level.

The generative AI tools discussed in contributions must be available in a free or free-tier version or commonly available as part of university-wide enterprise licenses or similar. Submissions may focus on, but are not limited to, the following themes:

- effective practices and/or lessons learned in integrating generative AI tools in classroom settings
- successful strategies for supporting teaching, learning, and assessment with generative AI tools
- real-time student feedback through AI-driven feedback mechanisms
- critical discussions on academic integrity, critical thinking, authorship, and other ethical concerns related to generative AI in classroom teaching, assessment, and curriculum design
- advances in instructional communication and/or pedagogical theories in the light of the integration of generative AI tools in classroom settings
- student engagement, participation, and collaborative learning in the AI-mediated classroom
- educational materials, instructional sources, and teacher professional development in the AI-mediated classroom
- development of knowledge and skills needed for learning in the generative AI era (e.g., digital literacy and critical generative AI literacy)
- critical discussions on the challenges that generative AI poses to classroom culture (e.g., digital divide, power dynamics, and intercultural inequalities)
- the sustainability of generative AI tools in classroom settings

The Topic Editors seek three types of submissions:

1. **Great Ideas for Teaching/Assessing with AI**: GIFT AIs (GIFT AIs are instructor- and student-tested ideas for effectively teaching and assessing a wide range of topics using

generative AI The goal of GIFT AIs is to inspire educators to include and to experiment with AI in their teaching practices A GIFT AI may include a original single teaching activities b original teaching units spanning several days or weeks c original semester long projects or approaches for an entire course d systematic data driven reflection on assessment practices to monitor and support student learning and improve the quality of specific courses or overall programs GIFT AI submissions should include the following components 1 title begin with GIFT AI 2 intended course subject class size level modality duration recommended skill sets for students weekly schedule cross disciplinary relevance and other relevant information 3 objectives learning outcomes 4 theoretical rationale gamification authentic assessment collaborative learning etc 5 step by step implementation instructions preparation preliminary steps required learning materials etc 6 debriefing appraisal including any limitations and or suggested variations and reflections 7 references 8 appendix optional The journals involved in this Research Topic accept a wide range of article types Suitable article types for GIFT AI submissions may include Brief Research Report and Technology and Code 2 Short Research Reports on Teaching Assessing with AI RESEARCH AIs RESEARCH AIs offer researchers engaged in advancing our understanding of the use of AI in educational settings the opportunity to present recent findings from a series of interconnected studies and classroom based research agendas The goal of RESEARCH AIs is to inform the scholarly community about comprehensive research programs and current research developments propose future research directions and contribute to evidence based practices for integrating AI in teaching and assessment Submissions to RESEARCH AIs should highlight how the presented findings stem from a coherent body of research that collectively addresses a unifying research question or theme RESEARCH AI submissions should include the following components 1 title begin with RESEARCH AI 2 abstract 100 200 words 3 introduction contextualization of the paper 4 main text comprehensive outline of the research agenda with discussion of relevant studies theories or models including research methodologies implemented and key findings 5 conclusion summarizing key points highlighting the research agenda s contributions and suggesting future directions 6 references 7 appendix optional The journals involved in this Research Topic accept a wide range of article types Suitable article types for RESEARCH AI submissions may include Brief Research Report and Technology and Code 3 Reflections on Teaching Assessing with AI REFLECTION AIs REFLECTION AIs are reflective pieces exploring the possibility of AI in teaching and assessing practices They are intended to inspire meaningful thought provoking debates among educators also in the style of op ed REFLECTION AIs should be forward looking outlining potential trajectories in pedagogical practices and or provocative discussing critical issues These reflective pieces may be based on a variety of approaches including for instance autoethnography case studies and historical analysis and authors may include bold suggestions and proposals Reflective pieces that critically question the inclusion of generative AI technology in the classroom are welcomed REFLECTION AI submissions may be written in first person form if relevant and should maintain a clear focus REFLECTION AI submissions should include the following components 1 title

begin with REFLECTION AI 2 abstract 100 200 words 3 introduction contextualizing the reflection and presenting the specific focus guiding the reflection 4 main argument discussion of the central theme with relevant examples case studies or personal teaching experiences if applicable May include an outline of possible future trajectories critical reflections bold suggestions and innovative ideas 5 conclusion 6 references 7 appendix optional The journals involved in this Research Topic accept a wide range of article types Suitable article types for REFLECTION AI submissions may include Perspective and Opinion Word Count and Supplementary Material Submissions should be a maximum of 3 000 words excluding the abstract section titles figure and table captions funding statement acknowledgments and bibliography references The word count includes appendixes unless the selected article type allows more than 3 000 words Relevant generative AI codes and scripts mentioned in the text as well as data that are not of primary importance to the text or which cannot be included in the article because they are too large or the current format does not permit it such as videos raw data traces PowerPoint presentations etc can be uploaded as supplementary material during the submission procedure and will be displayed along with the published article For more information about the submission of supplementary material please see here Manuscript Summaries Authors are encouraged to submit a manuscript summary before submitting a full manuscript The deadline for manuscript summaries is 31 01 2025 A manuscript summary is simply a summary of the manuscript one plans to submit The Topic Editors will review all manuscript summaries and provide feedback that authors should consider when writing their full manuscript Manuscript summaries will not be published externally and there is no associated fee The maximum word count for manuscript summaries is 2000 words Formatting Style Harvard is Frontiers recommended but not mandated citation style For manuscripts reviewed and accepted for publication the production process can include changing the style to Harvard

Talent Acquisition and AI Stephanie A. Smith, 2026-05-25 In an era where artificial intelligence is transforming industries this book focuses on the pivotal role AI plays in talent acquisition and workforce engagement It brings together insights from leading scholars to demonstrate how AI enhances recruitment processes improves employee retention and revolutionizes workforce management ultimately reshaping the future of work The book offers a comprehensive examination of how AI can be effectively leveraged to identify top talent streamline hiring processes and foster employee engagement through personalized experiences International contributors offer both theoretical frameworks and practical applications of AI in recruitment and retention illustrated with real world examples case studies and cutting edge research From optimizing hiring strategies to engaging the workforce more effectively this book provides actionable insights that bridge academic research and industry practices Aimed at scholars and astute professionals particularly in the fields of human resources business management and organizational development this book is an essential guide for those who want to stay ahead in the rapidly evolving world of AI driven workforce management By understanding and implementing AI strategies readers can enhance their organization s talent acquisition and retention capabilities fostering a more dynamic and engaged workforce

Digital Righteousness Byron Love, 2026-03-13 Artificial intelligence is reshaping jobs healthcare education finance and justice But what happens when the systems shaping our future fail to recognize our humanity Digital Righteousness confronts one of the most urgent questions of our time How will artificial intelligence impact Black communities across the globe and who will shape the outcome Written by retired Air Force computer and information systems officer Byron A Love a technology leader with more than 35 years of experience in IT cybersecurity governance and artificial intelligence this book bridges the gap between technical insight public policy and Christian ethics It offers a powerful accessible examination of how algorithmic bias digital exclusion and structural inequality are being encoded into modern AI systems and what we can do about it From biased hiring algorithms and flawed facial recognition systems to disparities in healthcare technology and digital access Digital Righteousness explores how the legacy of historical injustice intersects with emerging technologies Drawing on real world examples global case studies and clear explanations of artificial intelligence machine learning generative AI and AI governance this book equips readers to understand both the risks and the opportunities of our AI driven world While many books examine technology ethics or algorithmic bias few center the lived realities of the African diaspora or integrate faith based moral reasoning into the conversation Digital Righteousness uniquely combines technology policy workforce development and Christian ethical reflection to create a roadmap for human centered technology that serves dignity equity and justice This book is for Emerging Black tech professionals seeking to build careers in AI cybersecurity and data science Educators HBCU faculty and workforce development leaders preparing students for an AI economy Policy makers civil rights advocates and AI governance professionals shaping responsible technology frameworks Faith leaders and community advocates concerned about digital justice More than analysis Digital Righteousness is a call to action It challenges readers to move beyond fear of artificial intelligence and instead become informed participants in its creation and oversight If AI shapes the future we must shape AI Technology should not automate injustice It should advance opportunity The future of digital equity begins now

Ethical, Legal, and Pedagogical Perspectives on AI in Education Carlson, Kristen, 2026-01-21 The rapid integration of AI in the educational environment is transforming how students learn and schools operate While AI is a great prospective for personalized learning and expanded access to education its widespread adoption also raises significant ethical legal and pedagogical concerns Issues such as data privacy biases and the evolving role of educator s demand scrutiny Understanding these dimensions is essential to ensure that AI is implemented in ways that are transparent and supportive of meaningful learning experiences Ethical Legal and Pedagogical Perspectives on AI in Education explores the ethical legal and pedagogical dimensions of how AI is transforming education This book examines how technological advances have reshaped education systems and the benefits and challenges of these advancements Covering topics such as AI ethics and education this book is an excellent resource for educational researchers teachers students policymakers administrators academicians and more

Resumes That Make Sense N C

Bonde, Jr, 2026-02-08 Resumes That Make Sense A practical system for building clear resumes and using AI the right way

Most people don't struggle because they lack experience; they struggle because their resume doesn't clearly communicate their value. *Resumes That Make Sense* is a practical, no-nonsense guide that teaches job seekers how to write strong professional resumes that work for both human hiring managers and modern Applicant Tracking Systems (ATS). This book is not just another resume template collection. Instead, it teaches a complete resume system: how hiring decisions actually happen, how resumes are screened, how ATS software parses information, and how to present your experience with clarity, confidence, and credibility. Whether you are early career, mid-career, changing industries, or freelancing, this book gives you a clear framework you can use throughout your career.

Inside this guide, you will learn: How hiring managers really evaluate resumes in seconds; Why most resumes fail and how to fix them; How ATS systems work and how to format your resume so it passes; How to write stronger bullet points that focus on results, not tasks; How to build a skills section that actually helps you get interviews; How to tailor your resume for different jobs without starting from scratch; How to avoid common mistakes that silently disqualify applicants; How to use AI tools like ChatGPT responsibly to improve your resume; Copy and paste AI prompts designed specifically for resume writing; What AI can and cannot do when crafting professional documents; Three real sample resumes you can study and model for your own job search; A final resume checklist you can use before submitting applications.

This book is designed for: Job seekers writing a resume for the first time; Professionals updating an outdated resume; Career changers transitioning into new fields; Remote workers, freelancers, and creators; Recent graduates entering the workforce; Technical professionals, operations workers, and hands-on specialists; Anyone frustrated with generic resume advice. Unlike most resume books that focus on flashy templates or keyword stuffing, *Resumes That Make Sense* focuses on clarity, honesty, and real-world hiring logic. You will learn how to tell your professional story in a way that is both human and ATS-friendly, without exaggeration, gimmicks, or misleading claims. By the end of this book, you will not just have a better resume; you will understand why your resume works, how to update it over time, and how to present yourself consistently across applications, professional profiles, and interviews.

If you want a resume that is clear, professional, believable, and built to get noticed, this book gives you the tools to make that happen.
