put us in a bad mood right from the off Secondly those that are to be completed later in the day ideally at bedtime This can help to clear the mind ready for bed and be part of a proactive bedtime routine that increases your chances of a good night sleep As stated above if you skip one or a day or you don't achieve a goal etc please do not worry about it Nobody ever achieved all of their goals every day The science tells us that if you practice a new habit for 21 days straight it begins to become part of our natural routine So whilst some of this may seem difficult to begin with if you stick with it it will become easier over time until it is a set part of your day I hope you find the book helpful and I hope you see a sustained improvement in your mental health Tom Wavre Founder iam1in4.com **Sams Teach Yourself iCloud in 10 Minutes** Brad Miser, 2012
