Proceedings of Fourth International Conference on Soft Computing for Problem Solving Kedar Nath Das, Kusum Deep, Millie Pant, Jagdish Chand Bansal, Atulya Nagar, 2014-12-24 The Proceedings of SocProS 2014 serves as an academic bonanza for scientists and researchers working in the field of Soft Computing This book contains theoretical as well as practical aspects using fuzzy logic neural networks evolutionary algorithms swarm intelligence algorithms etc with many applications under the umbrella of Soft Computing The book is beneficial for young as well as experienced researchers dealing across complex and intricate real world problems for which finding a solution by traditional methods is a difficult task The different application areas covered in the Proceedings are Image Processing Cryptanalysis Industrial Optimization Supply Chain Management Newly Proposed Nature Inspired Algorithms Signal Processing Problems related to Medical and Healthcare Networking Optimization Problems etc Learn Programming With C Ghatage Omkar Ramesh, 2021-04-15 In This book we proved a Brief easy way to explanation about book chapter by chapter Chapter we explain every part of c language Explain Structures Futures And parts of Computers Programming like Condition Loop Array Structure Union And Mini projects *Data Structures Through C in Depth* Suresh Kumar Srivastava, Deepali Srivastava, 2004-05 This book is written in very simple manner and is very easy to understand It describes the theory with examples step by step It contains the description of writing these steps in programs in very easy and understandable manner The book gives full understanding of each therotical topic and easy implementaion in programming This book will help the students in Self Learning of Data structures and in understanding how these concepts are implemented in programs This book is useful for any level of students It covers the syllabus of B E B Tech DOEACC Society IGNOU DATA STRUCTURES & ANALYSIS OF ALGORITHMS Prof. (Dr.) Bibhuti Sharan, Vijendra Rai, 2025-04-25 MCA SECOND SEMESTER According to the New Syllabus of Dr A P J Abdul Kalam Technical University Lucknow AKTU as per NEP 2020 C- In Depth Srivastava, 2004-11-01

Comprehensive Data Structures and Algorithms in C# S. K. Srivastava, Deepali Srivastava, 2025-12-09

DESCRIPTION Data Structures and Algorithms are important subjects in any university curriculum for the computer science stream It provides a great tool in the hands of software engineers and plays a significant role in software design and development It is also becoming a must have skill for many competitions and job interviews in the software industry This book covers the topics useful for students and also for software developers working in the industry The concepts are explained in a step wise manner and illustrated with numerous figures text examples and immediate code samples which helps in better understanding of data structures and algorithms with their implementation There are exercises at the end of the chapters that enable students to explore more and build a better foundation of the subject The book has more than 500 illustrations code samples and problems Solutions for exercises are also available with the programs Students can use it for self learning and developers can use it for providing efficient solutions for their day to day development problems After

completion of this book students will have a good understanding of Data Structures and Algorithms concepts and implementation Software engineers will be able to provide better solutions with appropriate data structures and efficient algorithms

WHAT YOU WILL LEARN Fundamentals of data structures and algorithms Algorithms analysis A variety of data structures and algorithms useful for software design and development How to efficiently use different data structures and algorithms When and where to use appropriate data structures and algorithms Data structures and algorithms concepts with implementation Approach to solve problems using the right data structures and algorithms

WHO THIS BOOK IS FOR Students who want to self study data structures and algorithms for their university curriculum subject and to enter software industry It is also useful for software engineers who want to learn it to solve day to day problems with better software design and writing efficient code
