Corporate Governance Mechanisms and Firm Performance Shveta Singh,Monika Singla,2022-05-12 This book begins by analysing the various corporate governance mechanisms explored in the extant literature and determining their effectiveness in enhancing the firm value using multivariate analysis The findings are of global relevance as the corporate governance regulations of most countries focus on independent directors as the mainstay of good governance The empirical evidence from the first objective of this study corroborates the claim that independent directors do not strengthen the firms governance quality The book is one of the few works to have analysed the possible reasons behind the ineffectiveness of the independent directors Also in view of the famous concept of the bundle of governance mechanisms it might be possible that the independent directors strengthen the firms governance quality

indirectly by strengthening other governance mechanisms This aspect too has little precedence This study adopts a novel moderation and mediation approach to analyse the monitoring behaviour of independent directors in relation to other governance mechanisms The work is a must read for corporate players as well as researchers and scholars studying this discipline *India: Democracia, desarrollo y poder en el tablero mundial del siglo XXI* Carlos Moneta, Sergio Cesarin, 2025-05-04 La India del siglo XXI procura consolidar sus pretensiones como potencia regional en Asia Sudoccidental basada en su peso demográfico su representatividad como primera democracia del mundo su posición como segunda potencia asiática su extensión territorial el tamaño de su economía su capacidad tecnológica nuclear aeroespacial y en tecnologías de información y sus recursos militares La India del presente registra entre otros atributos una democracia vital y un poder de reconstrucción basado en la diversidad Sumada a esos procesos una mirada al futuro donde su trayectoria económica podrá hacia mediados del siglo XXI imponer modificaciones estructurales en el sistema global de poder ubica a la India como un actor de relevante ejemplo e incidencia para Argentina y América Latina **Who's who in Science in Europe** ,1967 Volumes for 1972 include also scientists from the East European countries Major Companies of Asia & Australasia 2007 23 V4 Editor, 2007 This authoritative directory has been expanded to cover 13 000 major companies and includes the contact names of more than 81 000 senior executives major companies and includes the contact names of more than 81 000 senior executives Entries typically include company name address telephone and fax numbers e mail and Web addresses names of senior management and board members description of business activities brand names and trademarks subsidiaries and affiliates number of employees financial information for the last two years principal shareholders and private public status *Brands and Their Companies* ,2007 **Literary Market Place** ,2000-10 Literary Market Place 2001 is the ultimate insider's guide to the U S book publishing industry covering every conceivable aspect of the business In two easy to use volumes it provides 50 sections organizing everyone and everything in the business from publishers agents and ad agencies to associations distributors and events Over 14 500 listings in all featuring names addresses and numbers key personnel activities specialties and other relevant data e mail addresses and Web sites and more Some 24 000 decision makers throughout the industry listed in a separate Personnel Yellow Pages section in each volume Thousands of services and suppliers equipped to meet every publishing need or requirement More than 400 new entries to this edition plus thousands of updated listings throughout LMP 2001 leaves no stone unturned in connecting you with the publishing firm service or product you or your patrons need It's completely revised and updated to help Publishers locate other publishers free lancers agents printers wholesalers manufacturers and more Suppliers find names and numbers of potential publishing customers Job seekers locate contact names addresses and phone numbers throughout the industry Booksellers get publisher ordering and shipping information Writers locate publishers for their works Librarians provide patrons with the reference source they need to find their way through the publishing industry Agrindex ,1995 **The Money Market Directory of Small**
