## **Netflix Box Office Top:**

**The Netflix Effect** Kevin McDonald, Daniel Smith-Rowsey, 2016-08-11 Netflix is the definitive media company of the 21st century. It was among the first to parlay new Internet technologies into a successful business model and in the process it changed how consumers access film and television. It is now one of the leading providers of digitally delivered media content and is continually expanding access across a host of platforms and mobile devices. Despite its transformative role, however, Netflix has drawn very little critical attention far less than competitors such as YouTube, Apple, Amazon, Comcast, and HBO. This collection addresses this gap as the essays are designed to critically explore the breadth and diversity of Netflix's effect from a variety of different scholarly perspectives, a necessary approach considering the hybrid nature of Netflix, its inextricable links to new models of media production, distribution, viewer engagement, and consumer behavior, its relationship to existing media conglomerates and consumer electronics, its capabilities as a web-based service provider and data network, and its reliance on a broader technological infrastructure.

**Media Management and Artificial Intelligence** Alex Connock, 2022-11-18 This cutting-edge textbook examines contemporary media business models in the context of Artificial Intelligence (AI) and digital transformation. AI has dramatically impacted media production and distribution, from recommendation engines to synthetic humans, from video to text tools to natural language models. AI is really the change agent of the media industry. Answered: a natural language generation model when AI was asked about the subject of this book. It will open incredible opportunities. This book seeks to explore them. The media is examined through four sections: Principles, maps business models and the key tools of AI; Platforms, covers distribution channels in Games, Streamers, Social Networks, Broadcast, and Digital Publishing; Producers, covers the engines of content making including Scripted Entertainment, Factual Content, Marketing, Creators, and Music; Finally, Pioneers, covers emerging sectors of Podcasting, Esports, the Metaverse, and other AI-driven developments. Then, in each chapter, a standard value creation model is applied, mapping a single sector through development, production, distribution, and monetisation. Diverse case studies are analysed from India, Nigeria, South Korea, South Africa, France, the Netherlands, the US, the UK, Denmark, and China, around creative entrepreneurship, revenue models, profit drivers, rights, and emerging AI tools. Questions are provided for each case, whilst chapter summaries cement learning. Applied and technology-focused, this text offers core reading for advanced undergraduate and postgraduates studying Media Management or the relationship between Entertainment Media and Technology. Online resources include chapter-by-chapter PowerPoint slides and an Instructor's Manual with further exercises and case studies.

**The Power of Instinct** Leslie Zane, 2024-06-18 Award-winning Fortune 500 brand consultant and behavioral expert Leslie Zane shatters conventional marketing wisdom, showing readers how to tap into the hidden brain where instinct prevails, creating a powerful network of connections that drive people to buy your product, company, or vision. People don't make decisions with their conscious mind but on instinct. In *The Power of Instinct*, marketing consultant and behavioral science expert Leslie Zane

shows that to grow a brand business or even a social movement traditional persuasion tactics fall short. Instead you must connect to the instinctive mind. And to do this you need to understand the science of consumer choice and employ techniques that work with a person's brain not against it. Zane uncovers the hidden network of connections that dictates the snap decisions we make and cracks the code on how to influence it. With a revolutionary set of rules for expanding the network Zane shows us how to make any brand business political candidate or idea the dominant instinctive choice. With science as your guide as well as stories from the world's most successful brands from McDonald's and Lululemon to the Yankees and Taylor Swift you'll learn what kind of messages create the greatest amount of positive associations. Why finding new customers accelerates growth and relying on existing ones is a trap. Why emotional stories are not enough to drive trial and long term brand loyalty. Whether you're an entrepreneur, Fortune 500 executive, marketing professional or job seeker mastering the power of instinct will help supercharge your growth and make whatever you're selling the first choice for any audience.
