Reshaping the Future Towards a New Normal* Katerina Zdravkova, Lasko Basnarkov, 2023-01-01 This book constitutes the refereed proceedings of the 14th International Conference on ICT Innovations 2022 Reshaping the Future Towards a New Normal ICT Innovations 2022 held in Skopje Macedonia during September 29 October 1 2022 The 14 full papers and 1 short papers included in this book were carefully reviewed and selected from 42 submissions They were organized in topical sections as follows theoretical foundations and distributed computing artificial intelligence and deep learning applied artificial intelligence education and medical informatics You Should Quit Reddit Jacob Desforges, 2023-02-21 In recent years countless books articles and documentaries have addressed the negative effects that social media platforms have wrought on their users and society However these former works are incomplete nearly no attention has been paid to Reddit one of the most popular websites in the world Reddit is certainly unique among social platforms but its potential for addiction and darker side of nefarious activity should absolutely not be understated Additionally nearly no actionable advice has been provided to users of these platforms The audience is told that these websites and apps are harming their mental health wasting their time and that they are addictive which would logically make the task of quitting rather difficult but then provided zero guidance on how to disconnect from them Over 200 000 users gather on Reddit s r NoSurf community to discuss reducing their internet use the forum is filled with reports of people who want to quit Reddit but find themselves psychologically compelled to return to the site over and over For moderate to heavy users of these platforms quitting is clearly not so simple You Should Quit Reddit is a paradigm shift in the genre Jacob Desforges was a Reddit user of over a decade and a self admitted Reddit addict who spent on average around three hours daily on the site Not only is this the first book investigating Reddit s flaws as a platform but it is also written from the perspective of someone who experienced firsthand the struggle that comes with quitting these addictive platforms This book therefore also provides readers with the practical advice tools and techniques needed to shatter the cycle of digital addiction enabling them to quit visiting Reddit and other time wasting websites for good so they can effectively reclaim their time to use in a more intentional manner **Proceedings of IEMTRONICS 2024** Phillip G. Bradford, S. Andrew Gadsden, Shibani K. Koul, Kamakhya Prasad Ghatak, 2025-01-24 This book gathers selected research papers presented at IEMTRONICS 2024 International IoT Electronics and Mechatronics Conference held during 3 5 April

2024 in London United Kingdom in hybrid mode This book presents a collection of state of the art research work involving cutting edge technologies in the field of IoT electronics mechatronics and related areas The work is presented in two volumes

Smart Intelligent Computing and Applications, Volume 1 Vikrant Bhateja,Suresh Chandra Satapathy,Carlos M. Travieso-Gonzalez,T. Adilakshmi,2022-04-18 The proceeding presents best selected papers presented at 5th International Conference on Smart Computing and Informatics SCI 2021 held at Department of Computer Science and Engineering Vasvi College of Engineering Hyderabad Telangana India during 17 18 September 2021 It presents advanced and multi disciplinary research towards the design of smart computing and informatics The theme is on a broader front focuses on various innovation paradigms in system knowledge intelligence and sustainability that may be applied to provide realistic solutions to varied problems in society environment and industries The scope is also extended towards the deployment of emerging computational and knowledge transfer approaches optimizing solutions in various disciplines of science technology and healthcare The work is published in two volumes *Proceedings of the XVI International symposium Symorg 2018* Nevenka Žarkić-Joksimović,Sanja Marinković,2018-06-12 [Token Economy](#) Shermin Voshmgir,2025-04-20 The third edition of *Token Economy* is not just an update it is a reworking of a foundational book that has helped thousands make sense of how Bitcoin and other blockchain networks like Ethereum or Solana are reshaping our digital financial and political systems The book serves as an excellent primer for understanding the key aspects of the technological infrastructure as well as the decentralized applications built on top of it from DeFi to various token types and decentralized organizations It also explains the difference between DeFi CeFi and TradFi why blockchain networks can be considered the backbone of Web3 and the increasing role of AI This edition adds many practical use cases blending history systems theory and real world use cases to demystify everything from Bitcoin to Tokens and DAOs It explains how blockchain architecture token design and incentive mechanisms intersect with regulation politics and economics You ll learn how crypto rewrites money what stablecoins actually do how DAOs govern digital communities and why many token ecosystems fail not because of code but because of incentives and governance If you re learning building investing teaching or regulating in Web3 this book offers critical clarity in a field full of jargon As a longtime voice of clarity in the crypto world the author Shermin Voshmgir weaves together historical analysis technical insight and interdisciplinary critique in a way that makes complex systems both legible and accessible The third edition includes many more use cases than previous editions and reflects a maturing industry one where many early promises of decentralization have collided with the realities of centralization custody risk regulatory capture and broken incentive design While many books on crypto focus on trading or superficial overviews the book remains rooted in systems thinking and long term relevance What This Book Offers A holistic framework for understanding Web3 infrastructure including blockchain architectures consensus mechanisms privacy scalability and the economics of decentralization A critical exploration of money and tokenization offering both historical context and future scenarios It asks hard questions about

whether cryptocurrencies and stablecoins can replace fiat money and explains how financial literacy remains the first line of defense against fraud and hype A grounded analysis of decentralized autonomous organizations DAOs and purpose driven tokens using real world case studies of protocols like Bitcoin Helium Ocean Protocol and MakerDAO A design thinking framework for evaluating token incentives governance structures and stakeholder dynamics bridging political science economics cybernetics and complex systems theory Whether you re a builder policymaker regulator academic investor or simply crypto curious Token Economy will help you Understand the difference between hype and real infrastructure Explore the incentives and governance dynamics embedded in every protocol Make better decisions around investing building or regulating digital assets Bridge the gap between idealism and realism in Web3
