**The Playful Entrepreneur** Mark Dodgson, David M. Gann, 2018-10-02 A compelling account of how incorporating play into work can help us overcome the uncertainty and turbulence that surrounds work How can we learn to deal with uncertainty at work The answer as Dodgson and Gann eloquently portray in this pathfinding book is to learn from the adaptive behaviors of entrepreneurs Play the authors show is a crucial component of this It encourages exploration experimentation and curiosity while it also challenges established practices and orthodoxies It facilitates change in people and organizations Drawing on in depth interviews with entrepreneurs and innovators this book explains why we should incorporate play into work what play looks like and how to encourage playfulness in individuals and organizations Dodgson and Gann identify four key behaviors that endorse encourage and guide play grace craft fortitude and ambition and provide a blueprint for an alternative way of working that fosters resilience and encourages innovation and growth in difficult times

**Humanize** Thomas Heatherwick, 2023-11-07 From one of the world's most innovative designers comes a fiercely passionate manifesto on why so many places have become miserable and boring and how we can make them better for everyone featuring hundreds of photographs and illustrations that will change how you see the world around you We are living through a global catastrophe Buildings affect how we feel moment by moment day by day They have the power to lift us up and make us feel awestruck playful safe and inspired just as they can make us feel alienated and sad But many of the places where we live work learn and heal have become monotonous and disposable We're surrounded by cheap boring buildings that make people stressed sick and unhappy In short much of our world has been crafted in a way that is hostile to human experience Now drawing on his experience of the last thirty years in making bold beautiful objects and buildings Thomas Heatherwick offers both an informed critique of the inhumanity in most of today's contemporary building design and a rousing call for action Looking through Heatherwick's eyes we see familiar landmarks and cityscapes around the world from London Paris Barcelona Singapore New York Vancouver and beyond both old and new famous and obscure to learn how places can either sap the life out of us or nourish our senses and our psyche The time has come he says to put emotion back at the heart of the design process and the reasons to do so could not be more urgent Design is not superficial it has an impact

upon economics climate change our mental and physical wellbeing even the peace and cohesion of our societies As citizens and users we need a world full of architectural diversity that delights and unites us And as makers and designers we can help create a world where cities reconnect with their essential mission to provide human spaces where people mix meet inspire each other and live out their full potential Elegantly crafted by Heatherwick s own studio and fully illustrated with hundreds of black and white photos Humanize is an urgent call to arms for making our world a better place for everyone to live and provides the vision and tools for us to make it a reality *Making* Thomas Heatherwick, Masie Rowe, 2012 Published to coincide with a major exhibition at the V A here is the first comprehensive monograph on one of the world s most innovative designers of three dimensional objects Still just two decades into his career British designer Thomas Heatherwick has been heralded as one of the most original creative talents for many years He has produced everything from sculptural chairs forged from the world s largest aluminium extruder to a bridge that rolls open and closed and an exuberant seed bank hairy with fibre optic lights This book is the first to present an exhaustive survey of his studio s output to date over 140 projects Long in development it has been prepared in close collaboration with Heatherwick himself offering a highly personal in depth and behind the scenes look at all aspects of Heatherwick s creative design and manufacturing processes The Spectator, 2007 **The Architects' Journal**, 2004-04 *Creative Island* John Sorrell, 2002 Creative Island explores the extraordinary range and quality of recent British design including work from all disciplines It describes over 100 projects from the last few years and includes biographical details of each of the project designers **Ceramic Review**, 2005 Leading Architecture & Design, 2005 **House & Garden**, 2008 *Tectonic*, 2000 *RIBA Journal*, 2007 **New Museums** Katharina Beisiegel, Art Centre Basel, 2017 The past decade of both economic crises in Europe and North America as well as an extraordinary museum boom in many Asian countries has led to new questions and concepts for future museum buildings New Museums Intentions Expectations Challenges investigates this paradigm change by presenting 20 recent and future museum projects on all continents Among the projects discussed are the Smithsonian s National Museum of African American History and Culture in Washington D C by Adjaye Associates the Guggenheim Helsinki by Moreau Kusunoki Architects China s Comic and Animation Museum in Hangzhou by MVRDV the Munchmuseet in Oslo by estudio Herreros the Zeitz Museum of Contemporary Art Africa in Cape Town by Heatherwick Studio the Long Museum West Bund in Shanghai by Atelier Deshaus and the extension of the Art Gallery of New South Wales in Sydney by SANAA Critical texts by leading museum and architecture writers Suzanne MacLeod Chris Dercon Karen van den Berg Wolfgang Ullrich Kali Tzortzi and Anke Gr ner shed light on the relation of new museum trends and state of the art architecture
