Identity, Narrative and Metaphor E. L'Hôte, 2014-11-05 This book shows that the discourse of the Labour party 1994-2007 revolving around three key concepts of identity narrative and metaphor not only reflected new Labour policy and organisational changes but that it was also an essential part of its successful strategies of renovation and of power legitimation

Political and Historical Topics in Selected Plays by Brian Friel: A Teaching Perspective David Cichowicz, 2012-08-29 Examination Thesis from the year 2002 in the subject English Language and Literature Studies Literature grade 2-3 University of Wuppertal language English abstract Brian Friel is considered one of the most successful contemporary Irish dramatists His works have achieved international reputation and are staged throughout the world Even in schools especially in Ireland his plays are dealt with For language and literature teachers who work with Friel's plays in school this paper shall serve as a kind of handbook It is divided into two parts The first is a theoretical analysis of Friel's plays Philadelphia here I come Translations and Making History It provides the basic theoretical knowledge about the plays that teachers need for professional teaching The analysis examines Friel's plays on political and historical topics The plays mentioned all show many similarities concerning these topics and therefore seem very suitable for a detailed literary analysis The second part of this paper is more practically orientated It provides classroom teaching ideas for Friel's plays including many exercises and teaching material Although a lot has been written on Friel only a few have looked at his work from a didactical point of view A journal article by Philip Brady The Scholar in the Hayfield Brian Friel and the Post Colonial Classroom 1998 reports about the staging experiences of Translations by a university teacher for Irish literature Brady mentions the international validity of the political topics in Translations that can be applied to many countries and cultures Unfortunately the article does not provide teaching ideas and materials A few teaching materials can be taken from the internet see II 5 p 52 but not much has been done here either This seems to be surprising because the German syllabus as well the Irish syllabus both state that in order to live in this world one needs knowledge about historical political social and economical coherences cf Richtlinien 1999 p XIV Language is embedded in history culture society and ultimately personal subjectivity English Syllabus Higher Level 1999 p 2 The selected plays match the demand of both syllabi because they mainly deal with historical and political topics and illustrate how they affect a whole culture and its individuals These circumstances show the necessity of a work such as this and it may prove to be something that fills an important gap in Friel studies

The Unreliability of Translations in Friel's Translations Bianca Müller, 2010-06 Seminar paper from the year 2010 in the subject English Language and Literature Studies Literature grade 2-3 University of Wuppertal course The Politics of Irish Drama language English abstract 1 Introduction The title of the play in question written by Brian Friel namely

Translations identifies one of the common concerns the leading Field Day dramatist shares with other postcolonial writers and which is subject of analysis in this essay The playwright himself emerges as a translator of the Irish Gaelic past illustrated by the fictional Gaelic speaking community Baeile Beag in Donegal into the political and economic realities of an Anglicized Ireland The interpretation will be put forward that the central notion of the play is the unreliability of translation Before one examines Friel s utilisation of the concept translation in the same titled play the technical term itself has to be clarified by drawing on some insights from translation theory In addition to that some brief comments will be made regarding the essay s underlying ideas of language culture and identity as these will be frequently points of reference during the course of this essay In order to justify the interpretation introduced above Friel s theatrical device that is to have the play enacted monolingual in the colonisers tongue has to be commented on It will be illustrated that the shift from one language Irish to another English is presented in the play as a predictable consequence of at least three forces Firstly the establishment of the National School System secondly the utility to learn English thirdly the perhaps strongest force presented as a powerful metaphor the ordnance survey The subsequent interpretations are rather based on character readings Sarah the mute hedge school student is of special interest because she represents the close connection between name and identity Owen the hedge school teacher s younger son has to be paid closer atten
