The Palgrave Handbook of Sovereign Wealth Funds H. Kent Baker, Jeffrey H. Harris, Ghiyath F. Nakshbendi, 2024-05-08 The Palgrave Handbook of Sovereign Wealth Funds provides a comprehensive detailed analysis of these funds from a multidimensional perspective consisting of 33 chapters divided into seven sections Section I provides background material about SWFs providing a foundation for the remainder of the handbook Section II examines various controversies governance and accountability topics involving SWFs Section III discusses the political legal and tax aspects of SWFs Section IV reviews numerous topics involving SWF management Section V deals with SWFs policies preferences and

performance Section VI provides descriptive analyses of SWFs based on country or region It also offers a comparison of SWF similarities and differences across countries Section VII concludes by examining special issues and the future of SWFs This handbook spans the gamut from theoretical to practical while offering the right balance of detailed and user friendly coverage Discussion of relevant research permeates the handbook Although other books are available on SWFs few are as comprehensive or provide a multidimensional perspective from academics and practitioners This handbook fills a gap by showing how SWFs are a growing and dynamic force in international finance

The Realities of Reality - Part IV: The Reality Behind Achieving World Peace Fritz Dufour, MBA, DÉSS,2020-04-05 This book is organized in seven chapters Chapter one looks at the origins and the causes of war The chapter argues that war is a consequence of how we as a species have evolved War has both endogenous and exogenous causes While the former depends on our biology and psychology the latter has to do primarily with international relations Chapter two makes the case for the paradoxical nature of war While war takes lives it is legitimate under certain circumstances For example armed humanitarian interventions are allowed to save lives among local populations at the expense of the oppressors by employing all necessary means ethical or not Chapter three asks if peace among nations is achievable which is the main theme of this book However it does not elaborate on the question entirely Instead it gives sort of a prelude of what will be discussed in the remaining of the book by talking about the concepts of world order and American hegemony arms race and peacebuilding Chapter four builds on three by looking at realism idealism and pacifism in international relations As to pacifism the chapter attempts to answer the question what was the most peaceful time in history Chapter five presents the elements of hope for world peace by considering the role played by the following 1 the United Nations 2 the North Atlantic Treaty Organization NATO 3 the Organization for Security and Cooperation in Europe OSCE 4 the non governmental organizations NGOs 5 the role of nuclear deterrence 6 globalization 7 transnationalism 8 diplomacy 9 sports 10 international cooperation in space exploration 11 the Nobel Prize and 12 the declining of war and violence in modern times On the other hand chapter six presents the opposite argument or the barriers to world peace using the following points 1 the proliferation of nuclear weapons 2 geoeconomics 3 terrorism 4 the global refugee crisis 5 the profitability of arms sales and 6 the profitability of wars It makes an interesting argument especially as to the profitability of wars by showing how the United States first emerged as an imperial and a world power in the 1890s then as the only world s superpower after World War II Finally chapter seven takes a proactive approach by peering into the future of armed conflict which is likely to take place in new environments Cyberspace the littoral choke points near space and increasingly in expanding cities or slums War The chapter concludes with a discussion on the Doomsday Clock a concept stemmed from the uncertainty as to the future of mankind because of armed conflicts and which is a symbol that represents the likelihood of a man made global catastrophe
