Follow the Fossils Samantha B. Ocon, Lisa Lundgren, Richard T. Bex II, Jennifer E. Bauer, Mary Jane Hughes, Sadie M. Mills, 2021-12-09 The ability for people to connect learn and communicate about science has been enhanced through the Internet specifically through social media platforms Facebook and Twitter are well studied while Instagram is understudied This Element provides insight into using Instagram as a science education platform by pioneering a set of calculated metrics using a paleontology focused account as a case study Framed by the theory of affinity spaces the authors conducted year long analyses of 455 posts and 139 stories that were created as part of an

informal science learning project They found that team activity updates and posts outside of their other categories perform better than their defined categories For Instagram stories the data show that fewer slides per story hold viewers attention longer and stories using the poll tool garnered the most interaction This Element provides a baseline to assess the success of Instagram content for science communicators and natural science institutions

Spirituality in the Selfie Culture of Instagram Petra P. Sebek,2019-03-22 This explorative study of personal spiritual expressions on Instagram generated important data in relation to the emerging field of cyberspirituality and showed the need for further development and research The book reveals several forms of spirituality present on Instagram mainly belonging to secular spirituality Many spiritual practices emerged in posts from all over the world demonstrated through photography as spiritual practice The Internet and social media in particular present an opportunity for individuals and communities to develop spiritual narrative when communicating online especially with young people who are more likely to express themselves as spiritual but not religious Spiritual authenticity on social media as a part of building spiritual capital is an important step
