

EYELINER

To apply eyeliner like a pro, the secret key is to get the right tools to achieve something what makes you feel gorgeous isn't the technique but the tools. Once you know what tools are perfect for you, all you need is a bit of practice for example, thicker eyes (HOLLYWOOD) need more eyeliner, and so on. Remember, the more you practice, the better you will become. The practice will allow you to understand the best eyeliner technique for your eye shape or your skin.

EYESHADOW

The next step in eye makeup: Getting to know your eye shape (be deep-set, wide-set, close-set, round, prominent, downturned, a combination between those) is important to properly pick the right that way to enhance your natural beauty with a flawless eye!

THE BASIC EYESHADOW TECHNIQUE

Now, I'll cover a basic eyeshadow technique that I consider both works well for most eye shapes!

- 1 Start by applying an eye primer.
- 2 Next, take a transition shade and apply it directly for your eye (fully blending through your eye into your forehead) from your eye to your inner corner until it is completely blended.
- 3 After that, take a darker but still natural shade like a taupe and with a more precise pencil brush, apply it on the outer 1/3 of the eyelid.
- 4 Next, take a lighter/neutral shade and apply it to the inner 2/3 of the eye.
- 5 To finish, highlight the brow bone and the inner corner of the eye with a shimmer shade from the darkest shade area.

It's now up to you how far you want your eye to look. If you prefer a darker look, and build that darkness on the outer corner.

Only Transition

You can mix and match this basic technique with the range of color of your preference, and recreate the look with purple, blue or pink for example!

PREP THE SKIN BEFORE MAKEUP

It is essential to have a clean, hydrated, and glowing skin before applying any makeup. Here are some steps to follow:

1. **Cleanse:** Use a gentle cleanser to remove dirt and oil from your face.

- Soap-free cleanser
- Toner
- Moisturizer
- Face Oil
- Sunscreen

Do you need to do every single step every time you do your makeup?

The short answer is no, but it's important to do the steps that are most important to your skin type.

For example, if you have dry skin, you should focus on moisturizing and using a face oil.

For oily skin, you should focus on cleansing and using a toner.

For sensitive skin, you should focus on using gentle products and avoiding harsh ingredients.

Sunscreen is an essential step that we don't want to skip, even during the winter season.

The only exception is when we are doing makeup for night events.

We don't want to use sunscreen because it can make our face look white or greasy when we apply makeup.

The very next step, it's going to be primer. Make sure to use a primer according to your skin type.

eyebrows

How to do eyebrows depends on your natural eyebrow shape, but every face shape can't use a thicker eyebrow. Whether an Upward eyebrow, but you can add a little downward arch to your eyebrows, the thicker your face shape, that's the key.

What Eyebrow Shape is Best?

First look at your natural eyebrow shape, how straight they are, how thick or thin they are, and how they look when you are older or younger.

The natural look of eyebrows is thin, straight and fluffy. There are 3 different eyebrow effects.

What to avoid on eyebrows makeup?

- Very dark eyebrows
- Very thin brows
- Very defined eyebrows
- Round eyebrows
- Powder

What to use for eyebrows makeup?

- Brow pencils and a very thin eyebrow brush
- Brow waxes for a gel-like laminated effect
- Colored eyebrow gel

Create little brow holes in the area where you may have holes. Blend it well, use it with brow gel, and clean the brow holes with concealer.

The right shade for you

There is a straightforward trick to identify your skin tone very quickly.

Find the natural light of the sun, and look at your arm, looking for your veins.

All the veins in humans are blue, but the skin tones in them it will give the final look to what we can see on our skin.

If your veins are blue and your skin has a yellow-orange undertone, your veins will have to look greenish.

If you find your veins are purple and blue, you have a pink undertone, blue blue and pink from the purple color.

If your skin is very light, you have a yellow undertone, blue blue and pink from the purple color.

In general, the perfect foundation shade for you is a shade similar to your skin tone with the same undertone.

PRO TIP: Warm your foundation first with your fingers before applying it to your face to activate it and get better results on the skin.

Concealer

The key to conceal is to get more coverage, especially the dark under-eye area.

Use 1 or 2 drops of liquid concealer to cover the under-eye area and the other part in your face that needs coverage.

Remember concealer and foundation are mixed up as they both are used to cover facial imperfections, but there are some key differences between the two.

- **Thickness:** Concealer is thicker than foundation.
- **Application:** Concealer is applied with a brush or sponge, while foundation is applied with a brush or sponge.
- **High coverage:** Concealer is designed to cover dark spots, blemishes, and redness, while foundation is designed to even out the skin tone.
- **Color:** Concealer comes in different shades to match skin tones, while foundation comes in different shades to match skin tones.

Concealer Shade

Concealer should be lighter than your foundation only if you are applying it to bring light to certain areas like under the eyes, chin, inside of your forehead, etc.

If you are trying to cover imperfections on the rest of the face, opt for a concealer in a similar shade to your foundation instead.

Concealer comes in different formulas such as cream, concealer, pencil, concealer, and the most popular one, liquid concealer.
