### **The Power Supply Industry** Panos Konstantin, Margarete

Konstantin, 2018-01-11 Power and Energy industry is a highly capital intensive business field. Furthermore, there is a very close interlinkage between technologies and economics that requires engineering consultants, economists, and lawyers dealing with investments in this field to have a basic knowledge of the power sector technologies and a common understanding of project evaluation approaches and methodologies.

The book's overall objective is to provide a comprehensive but concise coverage of power supply technologies and the related economics as required for techno-economic evaluation of investments in power and business projects. Throughout the book, the emphasis is on transferring practical know-how rather than pure theoretical knowledge. This is also demonstrated in numerous examples derived from experience of respective projects. The book comprises eleven chapters, 35 tables, 100 figures, 35 application examples, and 10 case studies. Target audience of the book are primarily international consultants, staff members of engineering companies, utility personnel, energy economists, and lawyers, as well as employees of government agencies entrusted with regulating the energy and utility sector, and finally students in related fields of engineering and economics.

*International Arbitration and the COVID-19 Revolution* Maxi Scherer, Niuscha Bassiri, Mohamed S. Abdel Wahab, 2020-11-17 International Arbitration and the COVID-19 Revolution. Edited by Maxi Scherer, Niuscha Bassiri, arbitrator appointments, issues of planning, preparation and sample procedural orders, witness preparation and cross-examination, e-signature of arbitral awards, setting aside and enforcement proceedings, and third-party funding. Also included are an empirical survey of users' views and an overview of how the COVID-19 revolution has affected the arbitration rules of leading arbitral seats. With this timely and practical book, arbitration practitioners and scholars will gain up-to-date knowledge of sector-specific challenges brought about by the COVID-19 pandemic and approach arbitration proceedings with an understanding of the most important legal and practical considerations during the crisis and beyond.
