Enter Prompt Sidharth Sreekumar,Barsali Bhattacharyya,2025-06-30 India the largest democracy and fastest growing large economy in the world faces unique challenges when it comes to the epochal AI This scrupulously researched book which includes interviews with practitioners policymakers and tech evangelists answers the questions every Indian today is grappling with Steering clear of utopian hype and dystopian gloom this book provides a balanced and nuanced understanding of AI s use cases and impact on our lives livelihood and society Cultural Differences between the West and East Asia and their Impacts on Global Economy Diana S. Kwan,Fu-Lai Tony Yu,2026-04-07 Most works on Asian or global studies adopt

mainstream Neoclassical methods to explain economic and social development. However, quantitative and optimisation techniques are unable to provide a deep understanding of policy change between the West and East Asia. To fill the gap, this book uses an evolutionary perspective to interpret economic and social transformations of two global powers, namely the United States and China. Specifically, this book outlines the roles of culture, institutions, and entrepreneurship in the analysis. Instead of logical empiricism in the English tradition, our approach is interpretative and storytelling in the continental European tradition. In other words, we adopt hermeneutics and phenomenology in the analysis and apply humanity to economics. There are two aims of this book: first, it outlines the evolution of Austrian evolutionary economics, and second, the role of learning in the decision-making process. It focuses on how decision makers learn and how good and bad learners are differentiated.
