Salvatore V. Falletta,2024-02-27 Discover how to develop and implement an HR analytics system that benefits employees as well as your organization The potential of HR analytics is a major discussion among scholars practitioners thought leaders and technology vendors with companies like Amazon Apple Google and Meta digging deeply into HR research and analytics practices that extend beyond simple metrics scorecards and reporting Additionally ethical questions have begun to arise about the potential abuses of HR analytics with respect to technological advancements and the datafication of personal and often trivial characteristics preferences and behaviors that have little relevance to job performance As a former chief human resources officer head of Global HR Research and Analytics at a Fortune 100 and thought leader on this subject Salvatore Falletta has witnessed first hand the emergence of creepy analytics as a hot button issue In this one of a kind guide Falletta delivers a proven step by step process for establishing HR analytics capabilities that serve employees and organizations alike You ll learn how to rethink and redefine HR analytics determine stakeholder requirements gather and transform data communicate intelligence results and establish an ethical ecosystem to ensure HR analytics remains a force for good **Business Driven Information Systems**

Paige Baltzan, 2008 The Baltzan and Phillips approach in Business Driven Information Systems discusses various business initiatives first and how technology supports those initiatives second The premise for this unique approach is that business initiatives drive technology choices in a corporation Therefore every discussion addresses the business needs first and addresses the technology that supports those needs second This approach takes the difficult and often intangible MIS concepts brings them down to the student s level and applies them using a hands on approach to reinforce the concepts BDIS provides the foundation that will enable students to achieve excellence in business whether they major in operations management manufacturing sales marketing etc BDIS is designed to give students the ability to understand how information technology can be a point of strength in an organization Publisher s website

**Redundancy at information and data level** Niklas Haug, 2024-08-02 Research Paper undergraduate from the year 2024 in the subject Computer Science General grade 1 0 language English abstract Almost any system used in daily life relies on transmitting data Whether it s sending a message to a friend transferring money to a bank account or streaming a movie on Netflix data is being transmitted from one point to another However data transmission is not always error free Errors from both humans and machines are quite common and can occur due to various reasons including Transposed digits e g when typing an IBAN or an amount of money into a banking app Noise in the communication channel Interference in wireless communications Hardware malfunctions or software bugs Although we cannot eliminate the occurrence of errors true to the motto Shit happens we can implement measures to detect these errors and ideally correct them without having to retransmit the corrupted data a process known as Forward Error Correction FEC These measures range from simple methods such as checksums implemented in numbers used every day e g IBAN ISBN EAN to complex algorithms like Reed Solomon codes used in communication systems and storage devices For instance the ability to correct errors allows data on a CD which may be partly corrupted due to physical scratches to be reconstructed and ensures that QR codes remain scannable and decodable even when partially soiled or illegible
