Fish that are native and can be located in a specific geographical area or ecosystem are referred to as indigenous fish species. India is home to a diverse range of indigenous ornamental fish species, with over 195 varieties reported from the North-East Region alone. Some of the important varieties include *Chanda nama*, *Puntius arulius*, *Poethia conchonius* etc. These ornamental fish species play a vital role in the Indian economy. They are used to decorate ponds and aquariums, and are also exported to other countries.
