Multi-Criteria Decision-Making Techniques in Waste Management Suchismita Satapathy,Debesh Mishra,Prasenjit Chatterjee,2021-09-30 This book addresses the problem of waste management by using multi criteria decision making MCDM methods The authors discuss how to apply MCDM a complex decision making tool that involves both quantitative and qualitative factors to develop strategies for effective waste management using various optimization models to rank alternatives while also incorporating the concerns and needs of multiple stakeholders to find the most optimal decisions for various types of wastes Typically there does not exist a single optimal solution to waste problems with help of MCDM far better solutions can often be found and utilized to facilitate sustainable waste management techniques in various industries This book provides unique effective and quick

decision making strategies for waste management With the ever increasing population and continuing human development the problem of managing waste becomes increasingly essential and this volume helps lead the way to finding sustainable solutions The Aräqe Dilemma Yeraswork Admassie,Ezana Amdework,2010 Araqe is a traditional home distilled beverage that is made from an assortment of cereals such as wheat sorghum and maize and has a high level of ethanol A ubiquitous feature of present day Ethiopian society with the exception of the predominantly Muslim communities Araqe is more than the alcoholic drink of choice for people living in rural and small towns Thanks to its qualities of divisibility long shelf life portability and high unit value it is also an important commodity that is produced by traded between and consumed in most rural and urban areas of the country Its negative effects notwithstanding it is a major object of exchange that ties cities to their rural hinterlands and with one another thus becoming an important component of the social fabric of the society It is an important social fact that cannot be dismissed as a fringe phenomenon But in spite of the substantial amount of ar qe that is distilled traded and consumed within the informal sector and the important place it holds in the socioeconomic fabric of the society no comprehensive study has to date been undertaken on its interrelated aspects at a national level The general objective of this study is to assess and document the processes origin introduction and spread patterns arenas manners trends currently evolving forms and future directions as well as impacts on environment economy social health and security of the production marketing and consumption of the homemade liquor ar qe with the ultimate aim of indicating how and to what extent these factors contribute to economic development stagnation and social cohesion disruption in rural Ethiopia in particular as well as the country at large

Compendium report on multisectoral actions for the prevention and control of noncommunicable diseases and mental health conditions World Health Organization,2024-05-03 Noncommunicable diseases NCDs and mental health conditions have a profound impact on societies communities and individuals around the world Their risk factors and determinants extend beyond the traditional health sector Addressing this complex challenge necessitates interventions that reach beyond the boundaries of public health and requires a coherent coordinated approach across all relevant governmental sectors Understanding documenting and sharing how governments implement multisectoral actions are essential to overcome these challenges and identify the capacity needs for coherent and sustainable responses to NCDs and mental health In 2019 WHO Member States requested the Director General to provide a consolidated report to the World Health Assembly analysing approaches to multisectoral action for NCD prevention and control including addressing social economic and environmental determinants of health This compendium report is the Secretariat s response to that request and features case studies from countries across WHO s six regions **Epidemiology and Environmental Hygiene in Veterinary Public Health** Tanmoy Rana,2025-03-18 Understanding the emergence and progress of zoonotic diseases Veterinary epidemiology is the study of the connection between animal exposure to chemical or disease agents and the observation of adverse effects Veterinary epidemiologists observe the patterns by which diseases

emerge in a population and play a crucial role in controlling emerging disease outbreaks and preventing infections. The major factors in environmental hygiene which have a tendency to produce disease and adverse health effects in animals require extensive study and play a potentially massive role in public health. *Epidemiology and Environmental Hygiene in Veterinary Public Health* provides a one stop reference for professionals in this vital field. Its exploration of environmental illnesses and pollutants in combination with biological disease vectors has no current rivals in the marketplace. With readable design and coverage of all major factors of epidemiological significance, the volume offers a unique contribution to the control of animal disease. *Epidemiology and Environmental Hygiene in Veterinary Public Health* readers will also find Schematic overview of the fundamentals of environmental hygiene and epidemiology. Detailed discussion of topics including etiological factors, preventative and control strategies, major disease agents and many more. Color figures, line figures and tables to illustrate key concepts. *Epidemiology and Environmental Hygiene in Veterinary Public Health* is ideal for all professionals and researchers in animal epidemiology and environmental hygiene as well as for farm managers, agricultural veterinarians and other professionals involved in large scale animal care.
